Opening Remarks

During this past year, Hunter College was visited by the Middle States Association which conducts accreditation reviews every ten years. Our guests left the College after their three-day stay marvelling at the dedication and achievements of the faculty. Especially in the light of limited resources, the Middle States team was impressed by the level of grant support that has shown steady growth over the last decade.

With fiscal year 1987 having come to a close, we are pleased to report that the momentum has continued. Awards from external sources for project support exceeded \$11.5 million from 241 awards being administered by the College and the CUNY Research Foundation. The number of faculty and staff directing the projects stands at 128, the highest number of individuals directing external grants in the College's history.

More than one hundred faculty competed for PSC-CUNY Research Awards during last year's competition. Numerous faculty applied or were nominated for other external and various College and University awards. When counting up the record of success over the past year, we note that 206 faculty members -- two of every seven faculty in the College -- were recipients of one or more external or internal awards.

We are pleased to congratulate all who had a part in recording a decade of growth and achievement.

REPORT OF GRANTS AND CONTRACTS - FISCAL YEAR 1987

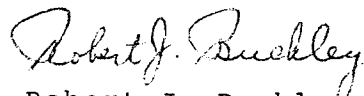

In preparing this annual report, I referred to the page with which I had introduced earlier years' versions of this document. It is a tribute to the faculty of Hunter College that this year I again find myself in the position of searching for appropriate superlatives.

The figures for fiscal 1987 are in, and for the ninth time in the last ten years, a new record has been set for the dollar volume of awards from external (i.e., outside CUNY) sources. At \$11,523,833, Hunter College has tripled annual grant and contract dollars as compared to nine years ago. With 241 awards, we have quadrupled the figure of ten years ago. By submitting 434 proposals and progress reports, we have more than quintupled the count of a decade ago.

Fiscal year 1987 was the best ever in numbers of awards from federal, state, city, foundation, corporate and non-profit sources, and dollars were up from all sources except the state. The Division of Sciences and Mathematics increased its level of support for the ninth consecutive year, surpassing the \$4.5 million mark. The Divisions of Programs in Education and Social Sciences also recorded their best years. External support of research projects surpassed \$5 million for the first time.

The report that follows lists each award made to the College. Within the section on external project support, we have listed fellowships and other awards given directly to faculty. In separate sections we have included the information on PSC-CUNY grants and other Hunter and CUNY support. Taken together, these awards demonstrate that the Hunter faculty's wide range of expertise is recognized nationally as well as within the university community.

Various statistical data throughout the report are meant to provide a perspective of grant and contract activity since the early 1970's. The reader will see evidence of steady growth in the most recent decade.

Part I: FUNDING FOR SPONSORED PROJECTS --
Summary of Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A. Overview of External Funding

Section I-B. Individual Project Listing

Section I-C. Proposal Submissions

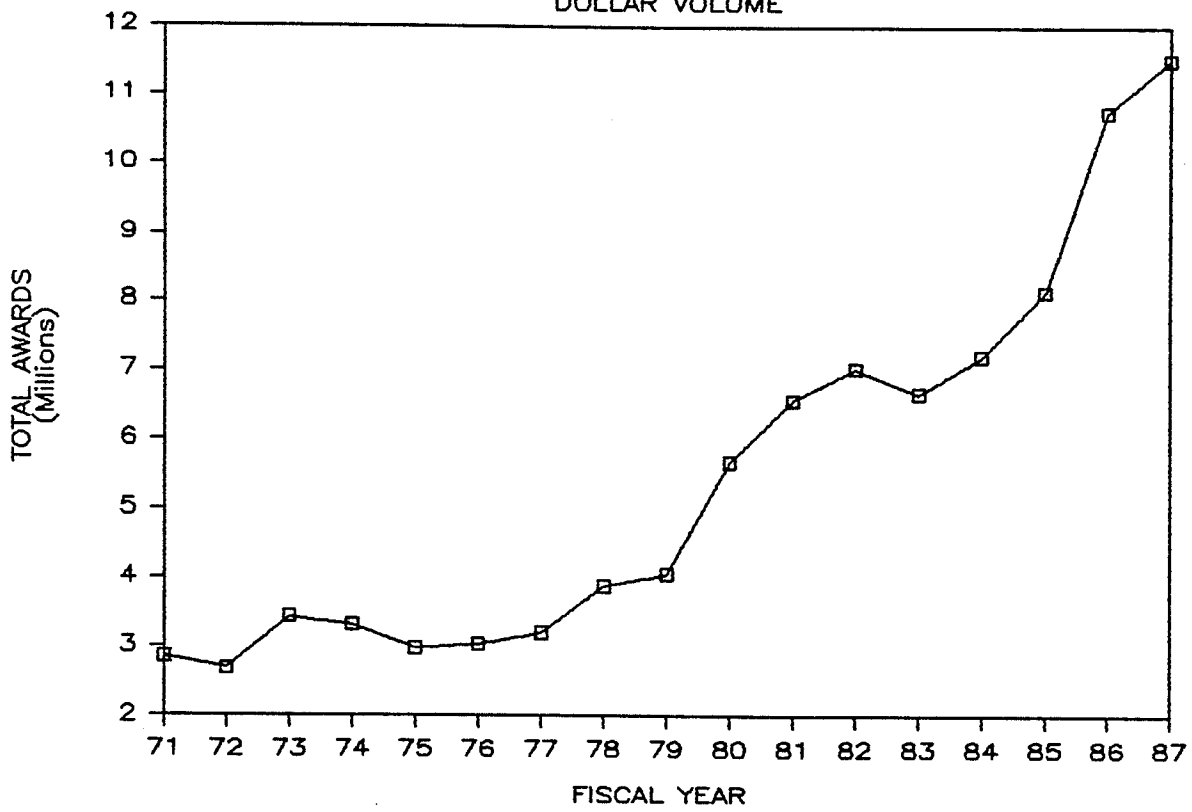

Section I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given back to 1971 when they are available.

For statistical purposes, although the Minority Biomedical Research Support grant is awarded for "sub-projects" to faculty members from three departments in two academic regions (Divisions of Sciences and Mathematics and Social Sciences), the grant is included only once in each division's project count. Also, although fellowships and other awards to individuals not processed by the Office of Research Administration are listed, they are not included in either the award totals or proposal submissions.

Section I-B: INDIVIDUAL PROJECT LISTING

This section's 47 pages list the individual projects that comprised the year's record of awards sponsored by external sources in fiscal year 1987. Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the overall statistics on institutionally administered awards shown in the previous section. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency, and when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or only slightly extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: PROPOSAL SUBMISSIONS

A record-setting number of proposals and progress reports were submitted in FY 1987. The final count for the year was 434.

The list of proposal submissions includes the following:

- a. proposals for new funding
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding
- c. progress reports which, although not competing with others for funding, must relate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are counted once.

Some statistical information is on the next several pages, with the individual faculty listing following.

NUMEROUS APPLICANTS SUBMIT A PROPOSAL TO MORE THAN ONE AGENCY, OR MORE THAN ONE PROPOSAL FOR DIFFERENT PROJECTS.

THE TERMS "PRINCIPAL INVESTIGATOR" AND "PROJECT DIRECTOR" ARE USED TO SIGNIFY SUCCESSFUL APPLICANTS, I.E., PERSONS WHO RECEIVE AWARDS. MANY FACULTY MEMBERS DIRECT MORE THAN ONE PROJECT.

ADDITIONAL NOTE: AS AGENCIES FREQUENTLY TAKE 6 - 12 MONTHS TO COMPLETE THE REVIEW OF A PROPOSAL, MANY PROPOSALS SUBMITTED IN ONE FISCAL YEAR DO NOT HAVE A FINAL DETERMINATION UNTIL THE FOLLOWING YEAR.

Part II INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section II-A: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. The eighteenth annual competition was held during fiscal year 1987, and Hunter faculty members had their most successful year, both in number of awards and grant dollars.

The first page of this section gives a history of the participation of Hunter faculty in the program. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

Section II-B: OTHER INTERNAL SUPPORT

During fiscal year 1987, Hunter College and the City University of New York granted 31 awards to Hunter faculty. Among the programs providing funds were:

1. Hunter's Shuster Fund, which announced 26 small research awards. The Fund was established in honor of the late former Hunter College President, George N. Shuster.
2. The College's Thomas Hunter Professorships, which are designed to recognize overall academic excellence among faculty.

Awards are listed by academic region on the following pages.

Part III: OVERALL SUMMARY OF PROJECT SUPPORT
Grand Totals of External and Internal Funding

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all the award data available for the last 17 years. This shows the growth of project support over the past decade. In each year since 1975, the dollar volume of the previous year was surpassed. In all but one year, in which the prior year's tally of awards was matched, the total number of awards rose as compared to the preceding year. As will be seen, the numbers and amounts of the awards have more than tripled over the most recent ten-year period.
