## Opening Remarks

The past year was one of transition at Hunter College, starting with the resignation of President Donna E. Shalala. The momentum that was built in the area of grants and contracts over the last decade, however, continued unabated during the tenure of Acting President Tilden J. LeMelle. Some highlights from this year's report:

- Proposal submissions rose for the eleventh year in succession, increasing by 14% from the previous year. The fiscal year 1988 figure is more than 500% higher than the proposal count in fiscal 1977.
- Grant and contract awards passed the \$13 million plateau, the highest annual level in Hunter College's 118-year history.
- The number of grant and contract awards increased from 241 in fiscal 1987 to 289 in fiscal 1988.
- The number of individual faculty and staff members directing projects went from 128 in the previous year to a new high of 146.

## ANOTHER BANNER YEAR

A Social Work faculty member is quoted as an expert on child welfare by the *Washington Post*. . . . The Career Explorations Program is used as a model for a national grants competition. . . . A Professor of Chemistry and a Professor of Psychology are notified by the Public Health Service that they will be the first MERIT ten-year research grant awardees at Hunter College. . . . These forms of recognition just scratch the surface of the accomplishments of the Hunter faculty and staff who, in the past year, have submitted proposals and been awarded grants and/or contracts by various agencies of government and the private sector.

Once again I have been left with the happy task of finding appropriate superlatives to summarize the new grants and contracts records that were achieved in the preceding year. The momentum began to gather in the mid-1970's, and except for a minor setback in one year, we have enjoyed eleven years of growth.

Grant and contract awards result, of course, from proposal submissions. There were 220% more individual faculty and staff members writing 545% more proposals in fiscal year 1988 (FY88) than in FY77. (See the salmon-colored pages of this report.)

Awards and dollars easily topped previous marks. The number of award actions in FY88 was 393% greater than the FY77 count, and the dollar volume was 307% greater. The cornerstone is federal support, which surpassed \$7.7 million, 175% more than in FY77. State, city, non-profit, foundation and corporate awards have shown even larger percentage increases over the period. (Refer to the green pages for various statistical breakdowns.)

Increases were also recorded in PSC-CUNY research awards (blue pages) and other internal support (cherry pages). In the canary pages we summarize all the sources of external and internal support.

Credit for these accomplishments goes to a growing list of faculty and staff. The FY88 roll of principal investigators is contained in the report's ivory pages, and our heartiest congratulations go to all who succeeded in making FY88 another banner year.

Summary of Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A. Overview of External Funding

Section I-B. Individual Project Listing

Section I-C. Proposal Submissions

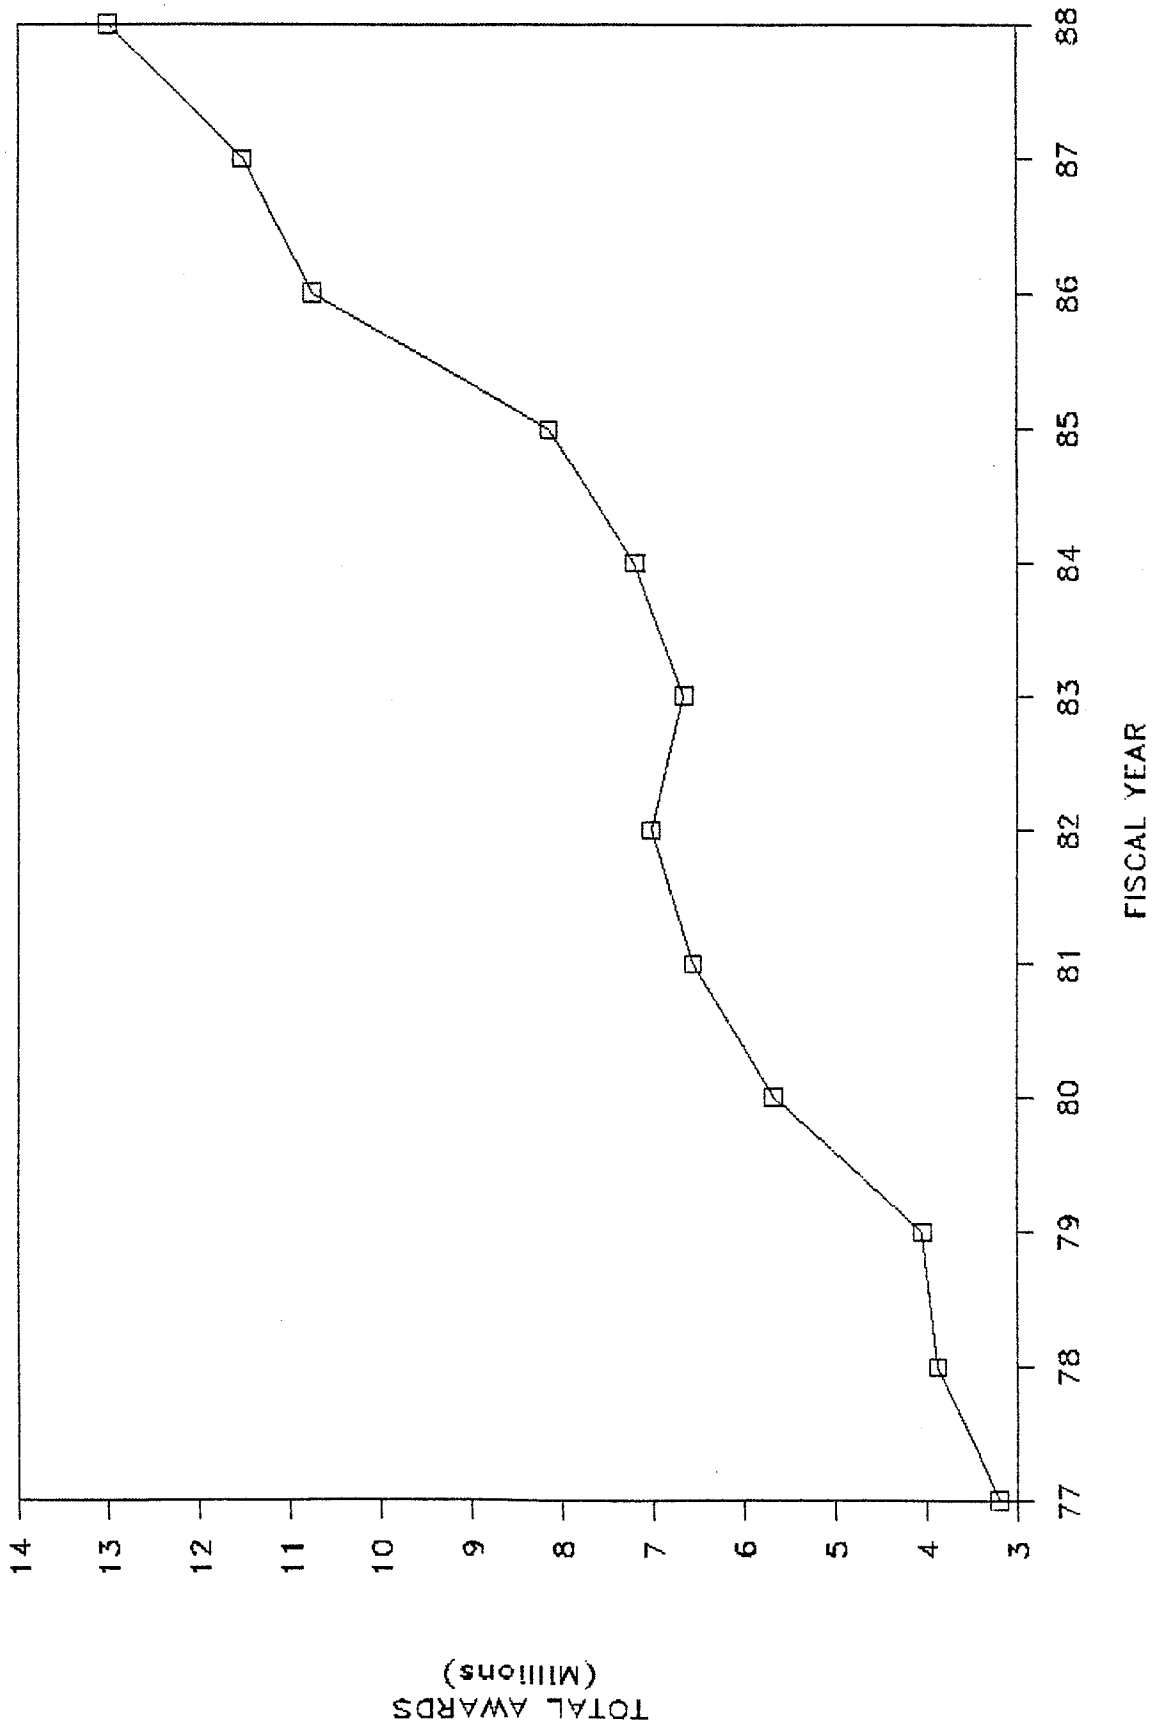

Section I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given back to 1977.

For statistical purposes, although the Minority Biomedical Research Support grant is awarded for "sub-projects" to faculty members from three departments in two academic regions (Divisions of Sciences and Mathematics and Social Sciences), the grant is included only once in each division's project count. Also, although fellowships and other awards to individuals not processed by the Office of Research Administration are listed, they are not included in either the award totals or proposal submissions.

Section I-B: INDIVIDUAL PROJECT LISTING

This section's 54 pages list the individual projects that comprised the year's record of awards sponsored by external sources in fiscal year 1988. Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the overall statistics on institutionally administered awards shown in the previous section. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency, and when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or only slightly extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: PROPOSAL SUBMISSIONS

A record-setting number of proposals and progress reports were submitted in FY 1988. The final count for the year was 529.

The list of proposal submissions includes the following:

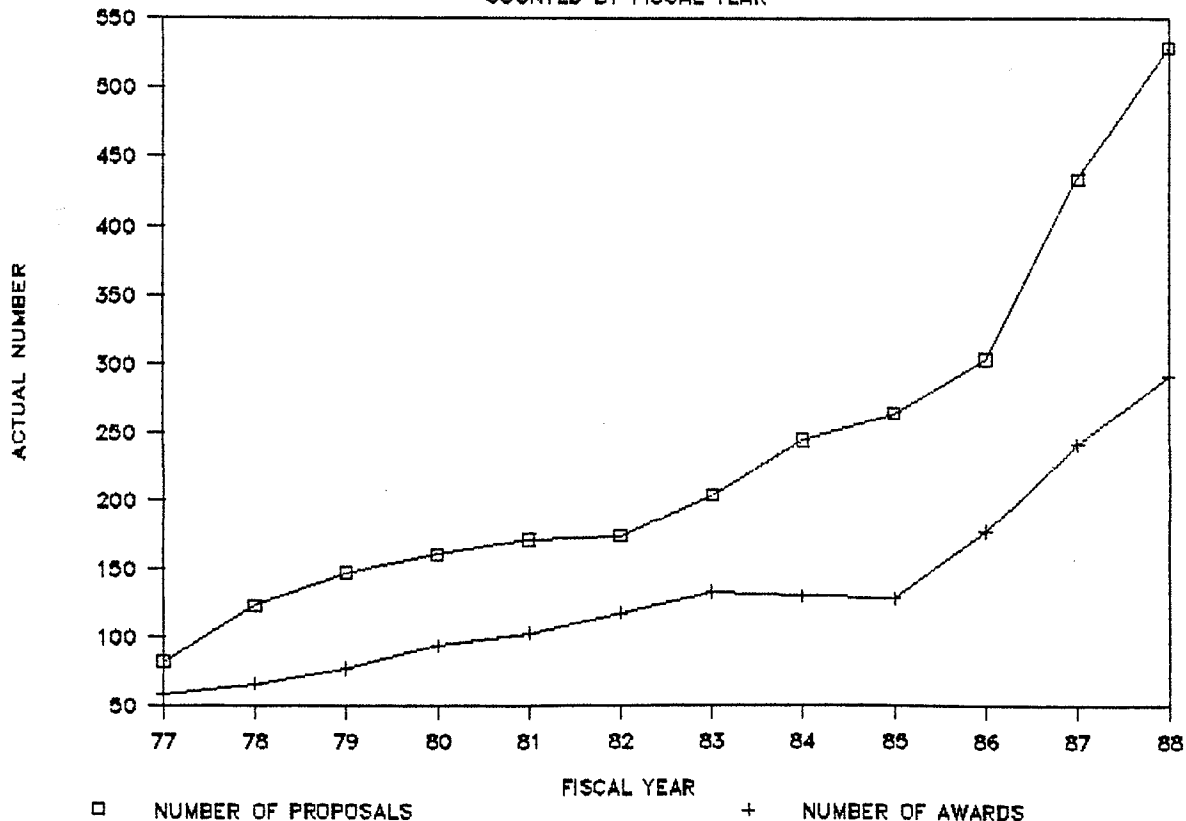

- a. proposals for new funding
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding
- c. progress reports which, although not competing with others for funding, must relate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are counted once.

Some statistical information is on the next several pages, with the individual faculty listing following.

## PROPOSALS AND AWARDS

88	182	529	146	291	\$13,000,425

NUMEROUS APPLICANTS SUBMIT A PROPOSAL TO MORE THAN ONE AGENCY, OR MORE THAN ONE PROPOSAL FOR DIFFERENT PROJECTS.

THE TERMS "PRINCIPAL INVESTIGATOR" AND "PROJECT DIRECTOR" ARE USED TO SIGNIFY SUCCESSFUL APPLICANTS, I.E., PERSONS WHO RECEIVE AWARDS. MANY FACULTY MEMBERS DIRECT MORE THAN ONE PROJECT.

ADDITIONAL NOTE: AS AGENCIES FREQUENTLY TAKE 6 - 12 MONTHS TO COMPLETE THE REVIEW OF A PROPOSAL, MANY PROPOSALS SUBMITTED IN ONE FISCAL YEAR DO NOT HAVE A FINAL DETERMINATION UNTIL THE FOLLOWING YEAR.

Part II INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section II-A: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. The eighteenth annual competition was held during fiscal year 1987, and Hunter faculty members had their most successful year, both in number of awards and grant dollars.

The first page of this section gives a history of the participation of Hunter faculty in the program. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

Section II-B: OTHER INTERNAL SUPPORT

During fiscal year 1988, Hunter College and the City University of New York granted 35 awards to Hunter faculty. Among the programs providing funds were:

1. Hunter's Shuster Fund, which announced 11 small research awards. The Fund was established in honor of the late former Hunter College President, George N. Shuster.
2. The College's Thomas Hunter Professorships, which are designed to recognize overall academic excellence among faculty.
3. The CUNY Women's Research and Development Fund

Awards are listed by academic region on the following pages.
