Annual Report of Grants and Contracts

JULY 1, 1988 THROUGH JUNE 30, 1989

HUNTER COLLEGE

of The City University of New York

Office of the Provost • 695 Park Avenue, New York, N.Y. 10021 • (212) 772-4150

Opening Remarks

In a year marked by the inauguration of Dr. Paul LeClerc as President of Hunter College, the number of awards and dollar volume of grants and contracts rose for the sixth consecutive year. At the conclusion of the fiscal year on June 30, 1989, Hunter College had been awarded more than \$14.4 million for projects for research, training, program development, community service and other areas.

Although we experienced a drop of 1.5% in Federal support, new standards were set in funding from State, City, and private sources. We are also pleased to report a 14% increase in support of basic and applied research.

New highs in grant and contract awards were recorded in the Division of Social Sciences, the School of Social Work, the School of Health Sciences, and the Center for Puerto Rican Studies.

I think you will find that this report confirms what we at Hunter have known for some time; that is, the faculty and staff have a clear commitment to excellence.

HUNTER COLLEGE

of The City University of New York

Office of Research Administration • 695 Park Avenue, New York, N.Y. 10021 • (212) 772-4020

Early in the fiscal year, it became apparent to the Office of Research Administration that Hunter College would once again surpass the previous year's total of grant and contract volume. The final figure of \$14,480,343 represents an 11.4% increase in dollar volume, and the 300 award actions are also a new record for Hunter.

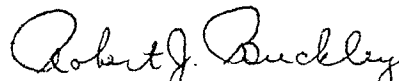

As recently as 1977, grant awards from agencies outside the City University system funded 59 projects for \$3.2 million. Momentum started to build in the late 1970's, and by fiscal 1980 we had achieved the seemingly unattainable goal of \$5 million.

With June 30, 1989 being the last day of fiscal year 1989, we have endeavored in this document to present a statistical report on grant and contract activity at Hunter College during the decade of the 1980's. Now, compared to the start of this decade, we have tripled both the number of proposals and the count of grant and contract awards. The success can be demonstrated by the 83% increase in the number of individual faculty and staff applicants, and the 134% increase in the number of our funded principal investigators.

This past year also marked the 20th PSC-CUNY Research Award Program competition. This program has served many positive purposes, among which are providing seed money for new projects and giving faculty members an opportunity to hone their proposal writing skills. These awards are shown in a later section of the report.

The final section of this report summarizes all project support about which we have become aware, including fellowships or other grants made directly to faculty (i.e., awards not administered by the institution). By adding all external and internal awards, we note that the \$15 million plateau has been exceeded for the first time.

I hope you find the report to be of interest and value in providing an outline of the extramural and intramural support by our faculty and staff.

Part I: FUNDING FOR SPONSORED PROJECTS --
Summary of Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A. Overview of External Funding

Section I-B. Individual Project Listing

Section I-C. Proposal Submissions

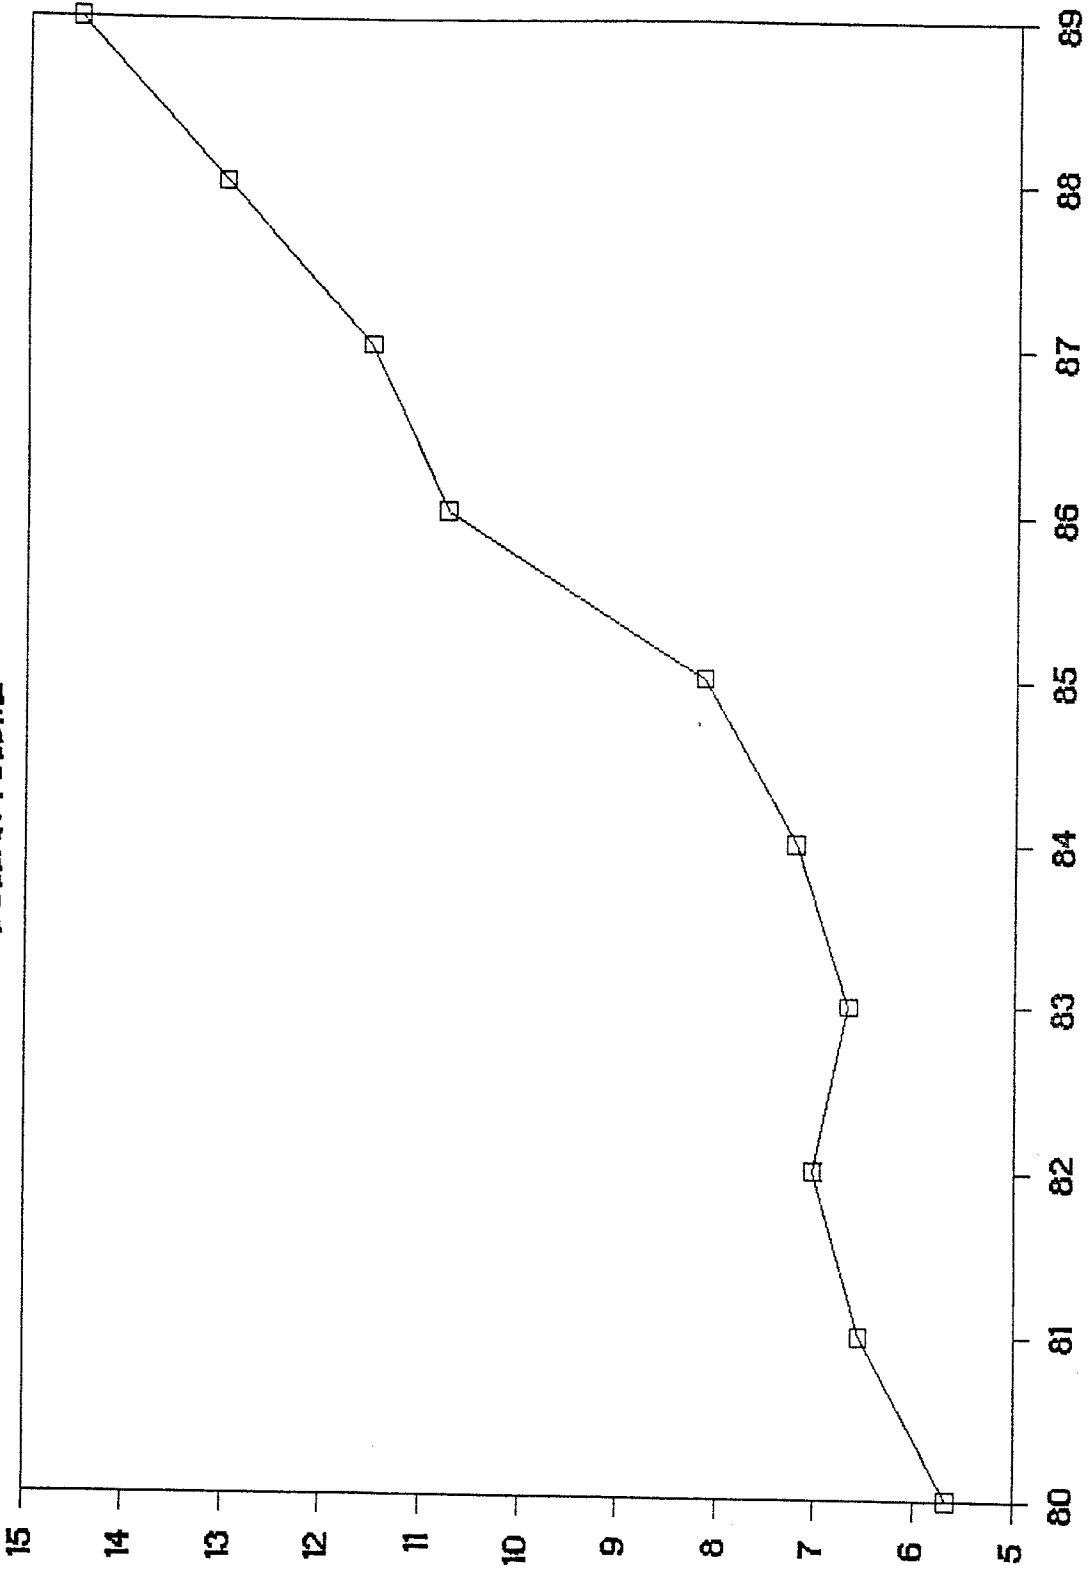

Section I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the ten-year period back to 1980.

For statistical purposes, although the Minority Biomedical Research Support grant is awarded for "sub-projects to faculty members from three departments in two academic regions (Divisions of Sciences and Mathematics and Social Sciences), the grant is included only once in each division's project count. Also, although fellowships and other awards to individuals not processed by the Office of Research Administration are listed, they are not included in either the award totals or proposal submissions.

Section I-B: INDIVIDUAL PROJECT LISTING

This section's 54 pages list the individual projects that comprised the year's record of awards sponsored by external sources. Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency, and when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or only slightly extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: PROPOSAL SUBMISSIONS

There was a slight drop in the number of proposals and progress reports submitted in FY 1989. The final count for the year was 484.

The list of proposal submissions includes the following:

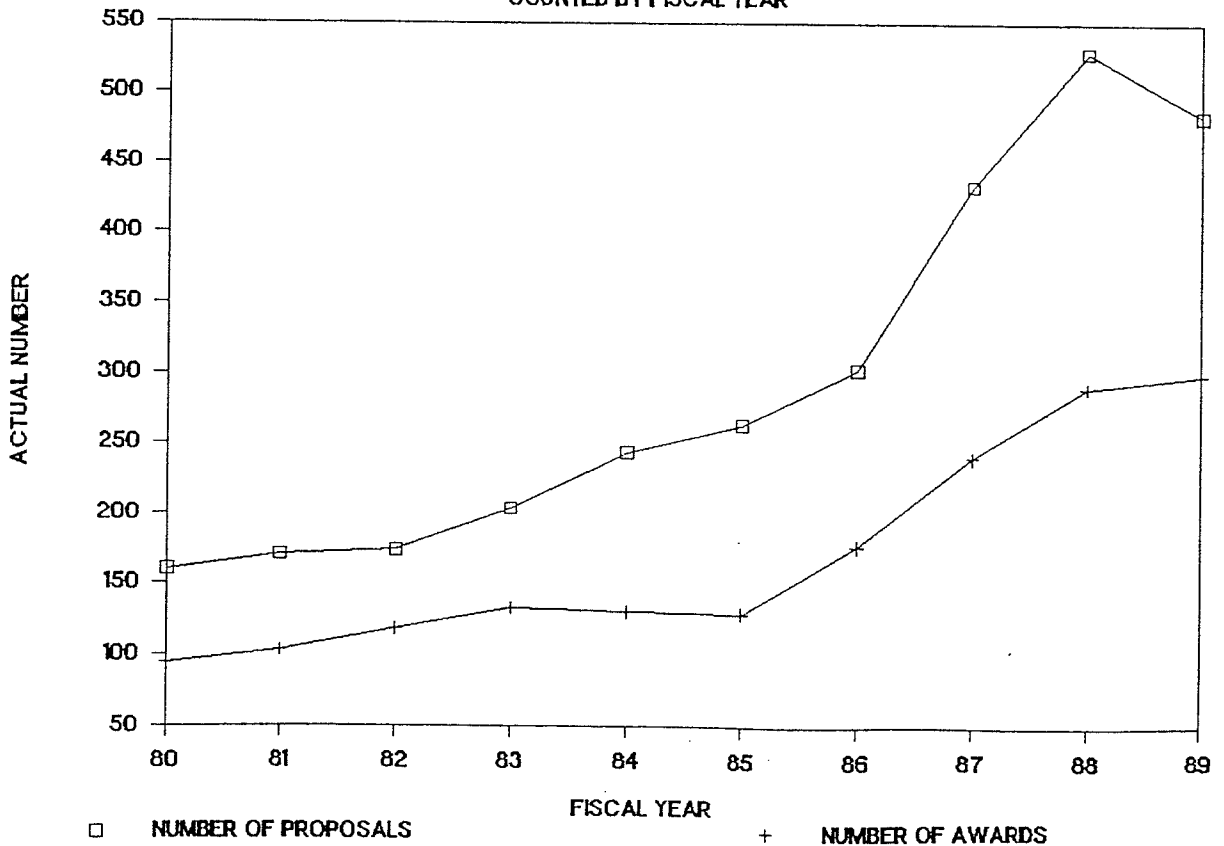

- a. proposals for new funding
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding
- c. progress reports which, although not competing with others for funding, must relate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are counted once.

Some statistical information is on the next several pages, with the individual faculty listing following.

NUMEROUS APPLICANTS SUBMIT A PROPOSAL TO MORE THAN ONE AGENCY, OR MORE THAN ONE PROPOSAL FOR DIFFERENT PROJECTS.

THE TERMS "PRINCIPAL INVESTIGATOR" AND "PROJECT DIRECTOR" ARE USED TO SIGNIFY SUCCESSFUL APPLICANTS, I.E., PERSONS WHO RECEIVE AWARDS. MANY FACULTY MEMBERS DIRECT MORE THAN ONE PROJECT.

ADDITIONAL NOTE: AS AGENCIES FREQUENTLY TAKE 6 - 12 MONTHS TO COMPLETE THE REVIEW OF A PROPOSAL, MANY PROPOSALS SUBMITTED IN ONE FISCAL YEAR DO NOT HAVE A FINAL DETERMINATION UNTIL THE FOLLOWING YEAR.

Part II INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section II-A: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. The twentieth annual competition was held during fiscal year 1989, and Hunter faculty members had their most successful year in grant dollars.

The next two pages of this section give a history of the participation of Hunter faculty in the program. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

Section II-B: OTHER INTERNAL SUPPORT

During fiscal year 1989, Hunter College and the City University of New York granted 38 awards to Hunter faculty. Among the programs providing funds were:

1. Hunter's Shuster Fund, which announced small research awards. The Fund was established in honor of the late former Hunter College President, George N. Shuster.
2. The College's Thomas Hunter Professorships, which are designed to recognize overall academic excellence among faculty.
3. Junior Faculty Development Awards

Awards are listed by academic region on the following pages.

Part III: OVERALL SUMMARY OF PROJECT SUPPORT
Grand Totals of External and Internal Funding

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all the award data available for the last 10 years. The information in this section includes the external awards detailed in Sections I-A and I-B of this report, plus fellowships and other grants awarded directly to faculty, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section-IIB). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff.

This section shows a steady growth of project support over the past decade. In each year the dollar volume of the previous year was surpassed. As will be seen, the numbers and amounts of the awards have almost tripled over the period.
