Annual Report of Grants and Contracts

JULY 1, 1990 THROUGH JUNE 30, 1991

OPENING REMARKS

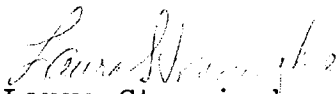

1990-91 will be remembered for many reasons at Hunter College -- ever-diminishing tax-levy budgets, student strikes protesting tuition increases, and a plethora of faculty committees trying to cope with each of our problems.

Amidst the din, Hunter faculty in every division continued to do research and to write proposals for new and continuing research projects. It gives me great pleasure to announce that our awards have risen again despite the national and local recession. The \$18 million level reached this year is 9% more than in the previous year. This is a mark of the quality of the projects directed by Hunter's faculty and staff.

Some highlights of the year:

- In Federal awards, after falling short of the \$7.8 million plateau for three consecutive years, grants and contracts increased to almost \$9 million in fiscal year 1991 -- a 15% increase.
- Awards from City agencies, foundations, and non-profit organizations also reached new benchmarks.
- Support of research projects rose to \$7.8 million -- an increase of 14%.
- The Division of Programs in Education, the Division of Sciences and Mathematics, the Division of Social Sciences, and the School of Social Work all exceeded their previous highest dollar level for a single year.

Externally supported projects substantially enhance the quality of academic life at Hunter. I congratulate all who participated in this achievement.

A Note from the Director

After the successful completion of the previous grant and contract year, we were cautiously optimistic that fiscal year 1991 (July 1, 1990 through June 30, 1991) would show at least a modest increase. Whenever President Paul LeClerc inquired, we were able to respond that we were running somewhat ahead of the fiscal 1990 (\$16.5 million) record pace.

As the fall semester wore on, news from Albany was decidedly bleak as the Northeast continued to spiral into recession. Despite countless threats of substantial cuts to training and service programs by State and City agencies, in actuality the rescissions we experienced were minimal. Our projects were relatively well-positioned to meet regional needs in their respective fields of endeavor. Other institutions and agencies felt the budget ax much more severely. Hunter's greatest problem related to grants was the drastic last-minute cut of the PSC-CUNY Research Award Program.

Our faculty and staff continued aggressively to seek grant and contract funding from federal and foundation sources, and to enter into collaborations with colleagues from non-profit organizations that had been awarded grant funding. **The result was our best year to date in the dollar volume of grants and contracts. Within the \$18 million, we also set new Hunter records for funding from federal and foundation sources and subcontracts from non-profit agencies.**

A clear indicator of the year's success is the fact that 1,854 personnel action forms were processed by the Office of Research Administration. Of course, many personnel appointments are for the remainder of a grant year and necessarily short-term. Nonetheless, during the academic year we are now carrying more than 450 persons on grant/contract payrolls at any given time. As this report goes to press, we have more than 525 persons on payroll.

With this report, we record the achievements of our faculty and staff who competed for funding. We hope you find the report of interest. Our congratulations go to all who made fiscal 1991 a record year.

Part I: FUNDING FOR SPONSORED PROJECTS -- Summary of
Grants and Contracts from External Sources

This part is divided into three sections:

- | | |
|-------------|------------------------------|
| Section I-A | Overview of External Funding |
| Section 1-B | Individual Project Listing |
| Section I-C | Proposal Submissions |

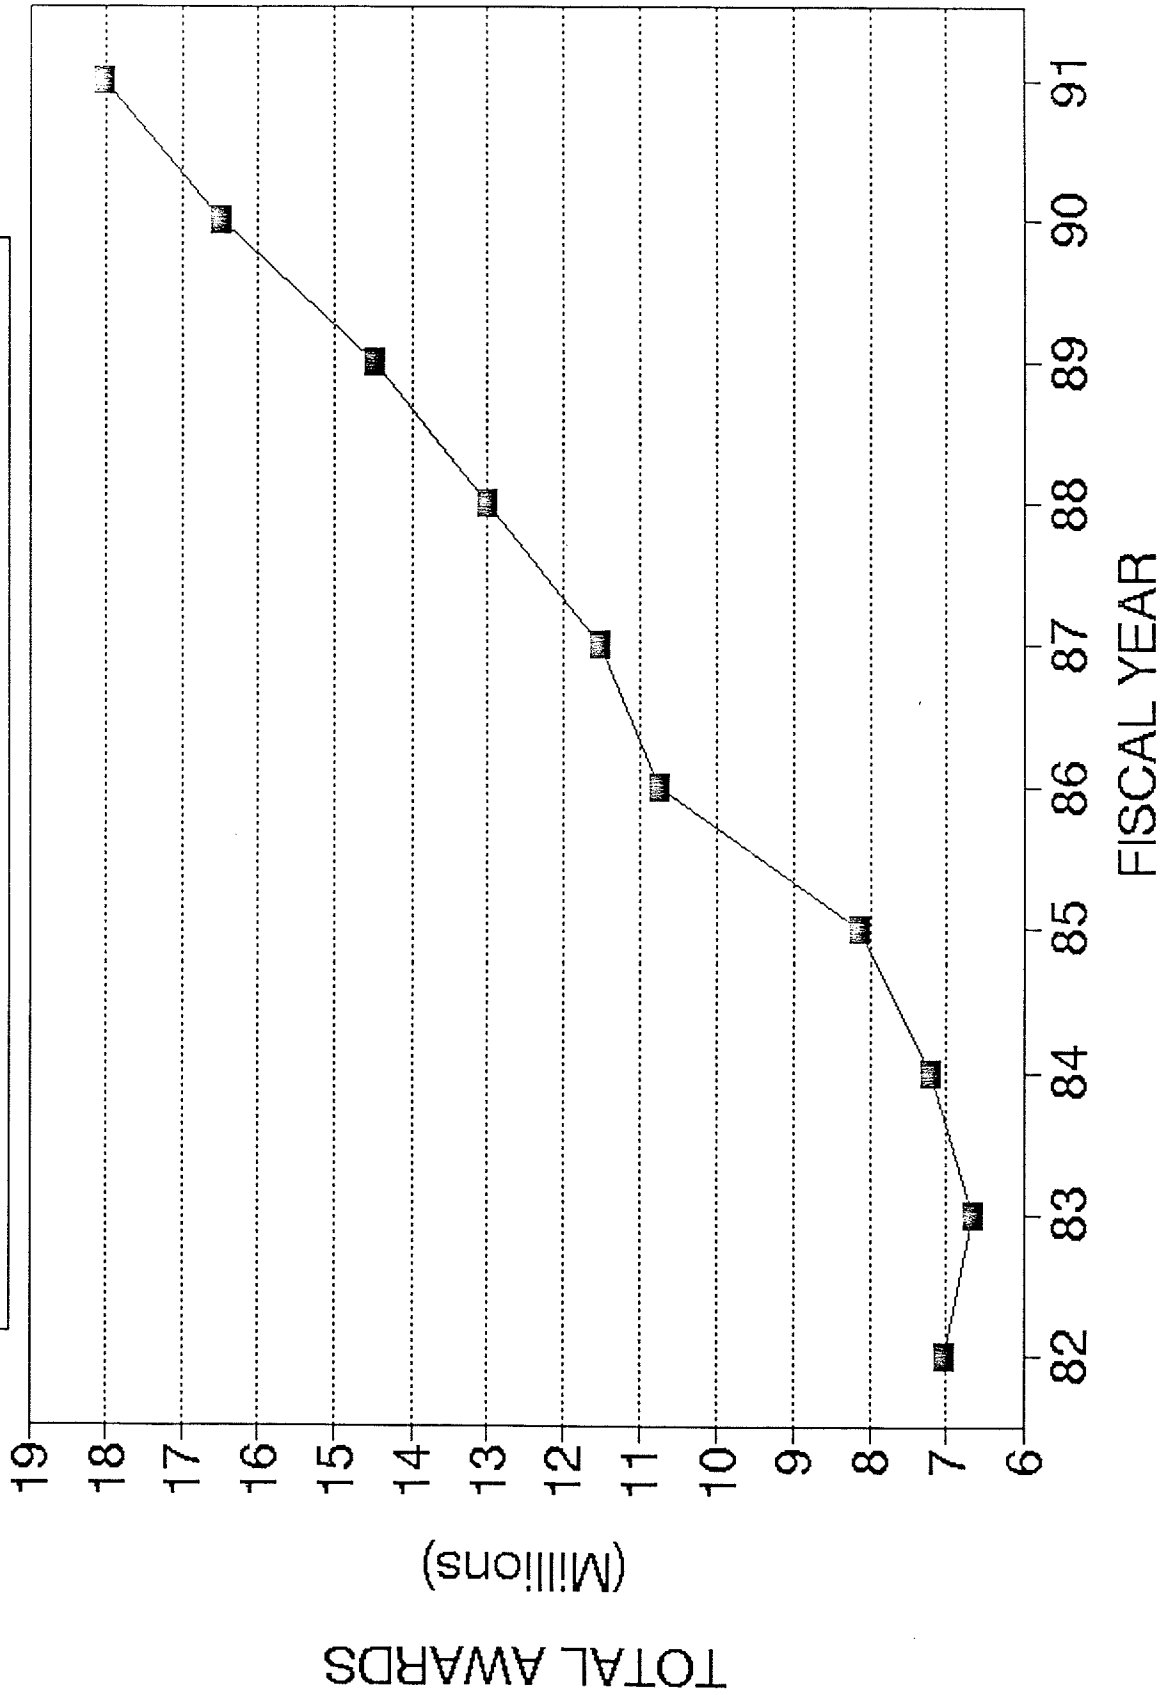

Section I-A OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the ten-year period back to 1982.

For statistical purposes, although the Minority Biomedical Research Support and Biomedical Research Support grants are awarded for "sub-projects" to faculty members from four departments in two academic regions (Divisions of Sciences and Mathematics and Social Sciences), the grants are included only once in each division's project count.

Section I-B: INDIVIDUAL PROJECT LISTING

This section's 58 pages list the individual projects that comprised the record of awards sponsored by external sources during fiscal year 1991 (July 1, 1990-June 30, 1991). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency, and when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an on going project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: PROPOSAL SUBMISSIONS

A total of 437 proposals was submitted in FY 1991.

The list of proposal submissions includes the following:

- a. proposals for new funding
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding
- c. progress reports which, although not competing with others for funding, must relate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are counted once.

Some statistical information is shown on the next several pages. The listing of individual faculty and staff applicants concludes this section.

Part II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section II-A: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. The twenty-second annual competition was held during fiscal year 1991.

The difficult budget situation in New York State resulted in a 50% cutback in the size of new, renewal, and continuation grants. Out-of-cycle grants, funded from the funds remaining from the previous years' competitions, were not effected.

The next page of this section gives a recent history of the participation of Hunter faculty in the program. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

Part III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Totals of External and Internal Funding

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all the award data available for the last 10 years. The information in this section includes the external awards detailed in Sections I-A and I-B of this report, plus fellowships and other grants awarded directly to faculty, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section-II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff.

This section shows a steady growth of project support over the past decade. In each year the dollar volume of the previous year was surpassed. As will be seen, the numbers and amounts of the awards have almost tripled over the period.

Acknowledgements

Since the mid-1980s, each summer the Office of Research Administration has issued an annual report. The data is gathered and formulated primarily by the full-time staff with some data input by our student assistants. The duplicating and binding of the report is carried out primarily by our student assistants who also keep an eye on the quality of the copies and accurate collating.

For compiling the information, programming and inputting, proofreading, duplicating, collating, assembling and binding, and distributing the report -- all while keeping normal office functions going -- I wish to thank the following persons:

Priscilla W. Price	Assistant Director
Carolynn Julien	Assistant Director for Sponsored Contracts
Barbara Medina	Grant Assistant Administration C
Anil Oommen	Manager of Resources
Lillian P. Buckley	Computer Programmer and Input
Lynda Ortiz	Senior Graduate Student Assistant
Sydell Tyson	Student Assistant
Beth Foley	Graduate Assistant
Annmarie Rivera	Graduate Student Assistant
Cheryl Jones Brown	Student Aide.
