

August 30, 1994

I am pleased to provide you with a copy of the Office of Research Administration's Annual Report of Grants and Contracts for the fiscal year that ended June 30, 1994.

Support for sponsored projects from external sources rose by more than \$2.5 million, surpassing all previous records. \$25 million was the highest total in the College's history.

HUNTER COLLEGE

Annual Report of Grants and Contracts

July 1, 1993 through June 30, 1994

For the eleventh consecutive year, Hunter faculty and staff have continued to break their own pace-setting records for winning grants and contracts. The 1993-94 total is more than \$25 million. This is a \$2.5 million increase over the previous year, a year in which we topped the \$20 million mark for the first time.

I know that everyone in the Hunter community shares my pride and delight in these dedicated men and women and joins me in congratulating them on this signal accomplishment. Their scholarly achievements, their commitment to Hunter students and their extraordinary contributions are all recognized in these grants, which also testify to their dedication to excellence in education. The work of our wonderful faculty and staff is a key factor in making Hunter CUNY's preeminent college.

OPENING REMARKS

When I arrived at Hunter five years ago, I was impressed by the growth in the volume of grants and contracts in the previous five years. Grants in 1989 reached almost \$14.5 million, more than double the 1984 mark of \$7.2 million.

Grant and contract awards have continued to flow to Hunter. This year's remarkable \$25 million comes in a milestone year for the College, as we will be celebrating the 125th anniversary of this institution.

It is most satisfying to me as Provost of Hunter College that the increases in awards have not come from just one or two areas of the community. The Division of Sciences and Mathematics exceeded \$7 million for the first time, and the School of Social Work almost doubled its previous highest output. Further, all of our centers set new records for grants and contracts.

The success in garnering this high level of awards is a recognition of the accomplishments of our faculty and staff. I am pleased to congratulate everyone who had a role in setting this benchmark.

A Note from the Director

It's generally considered poor writing to be repetitive, but in the case of Hunter College's annual **Report of Grants and Contracts**, I am happy to experience that problem. Awards to Hunter College faculty and staff again surged upward -- for the eleventh consecutive year. Last year we proudly trumpeted passing the \$20 million plateau. This year the total of grants and contracts vaulted past the \$25 million milestone.

This report lists all the awards made to Hunter College during the past year. The statistics are impressive. The Overview of External Funding section of this report (green pages) shows astronomical percentage increases in funding from various sources in the last two decades. While the dollar volume was "flat" until approximately 1977, awards have been on the rise since the late 1970's.

Coupled with the upcoming 125th anniversary of the establishment of Hunter College, we decided that there must be something serendipitous about increments of 25. On a personal note, I marked my 25th anniversary at Hunter College this summer.

Further, we have computerized grant histories on faculty and staff since 1970, meaning that we are in the 25th year of record-keeping. We have taken advantage of computer technology to provide annual summary statistics going back to July 1970. I am delighted to edit this report that highlights the success of our faculty and staff in winning significant grants and contracts.

The staff of the Office of Research Administration joins me in saluting our faculty and staff on their achievements. We hope you find the following report to be informative.

Part I: FUNDING FOR SPONSORED PROJECTS -- Summary of
Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A Overview of External Funding

Section 1-B Individual Project Listing

Section I-C Proposal Submissions

Section I-A OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given beginning July 1, 1970.

Grants and contracts have undergone remarkable growth since the late 1970's. Viewing awards in ten-year increments, we used 1974 as the base year to illustrate growth:

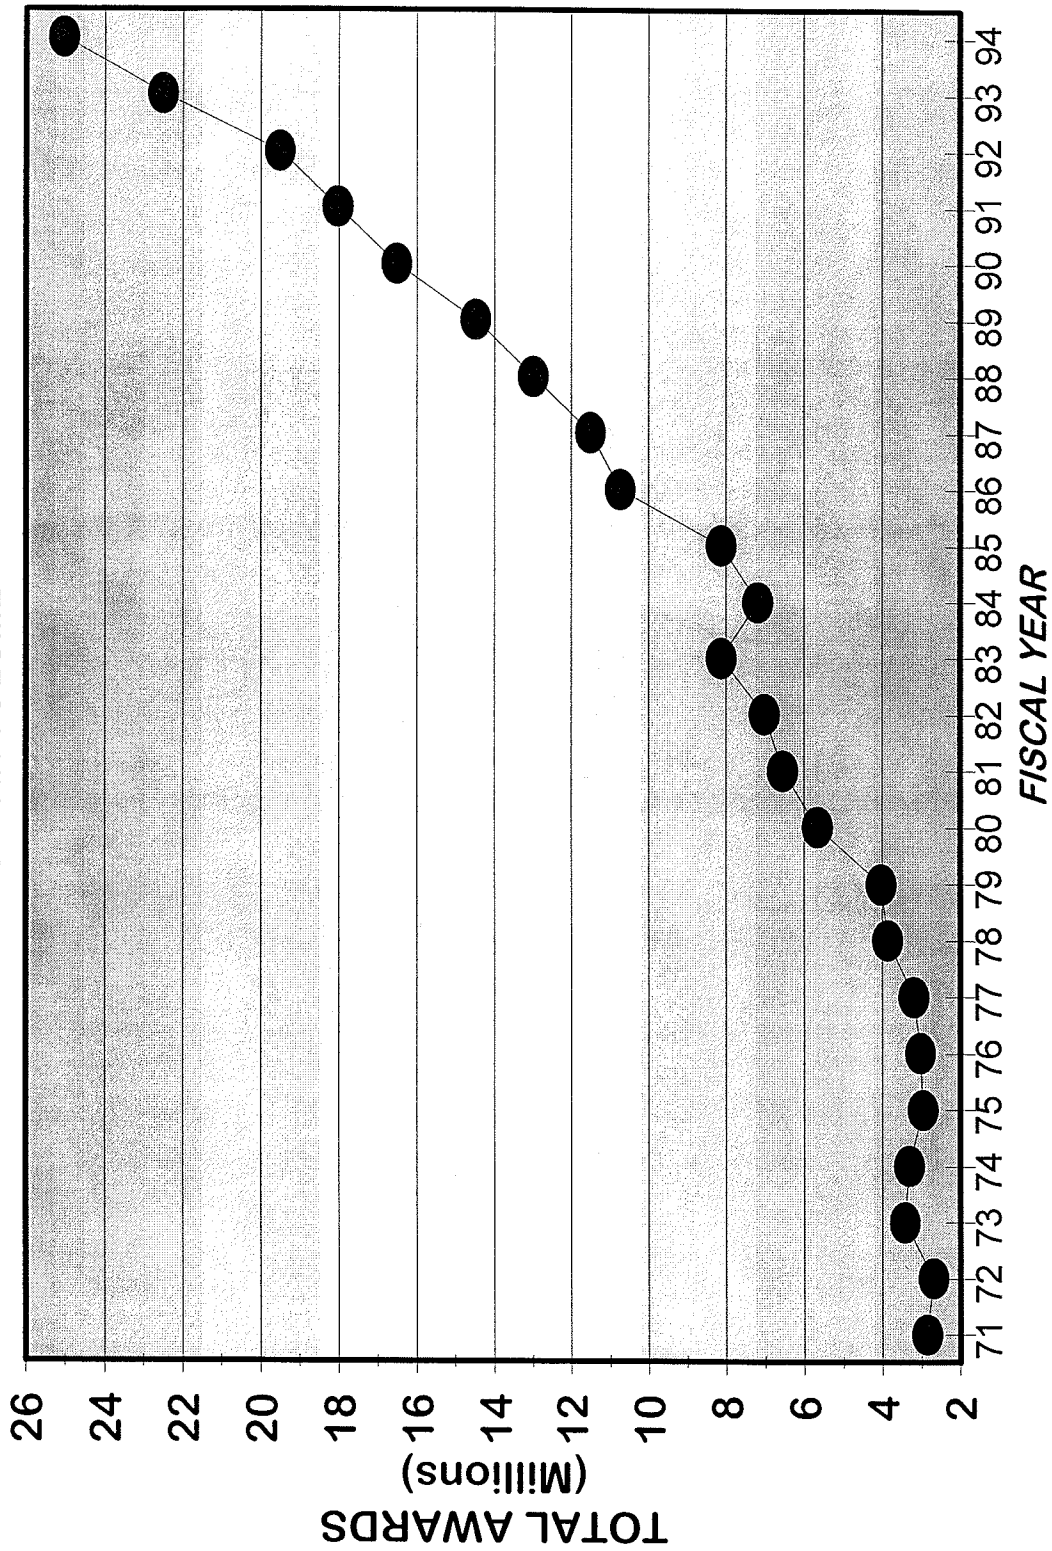

Per Cent Increase in Dollar Volume by Source from 1974

	<u>Federal</u>	<u>State</u>	<u>City</u>	<u>Non-profits</u>	<u>Foundations</u>	<u>Total</u>
1984	55%	1,691%	(99%)	353%	5,522%	118%
1994	278%	9,360%	1,197%	1,457%	26,385%	656%

The "mix" of the source of grants has also undergone tremendous change. In 1974, Federal grants totalled \$3 million and represented 88% of that year's grants. In 1994, Federal grants has risen to more than \$11 million, but that amount constituted only 44% of our \$25 million. In the same twenty-year period, foundation grants rose from less than 1% of our total support to better than 21% this year.

This section's 66 pages list the individual projects that comprised the awards sponsored by external sources during fiscal year 1994 (July 1, 1993-June 30, 1994). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an on going project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C.

PROPOSAL SUBMISSIONS

A total of 570 proposals was submitted in fiscal year 1994. The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are only included once.

Some statistical information is shown on the next several pages. The listing of individual faculty and staff applicants concludes this section.

Numerous applicants submit a proposal to more than one agency. Others submit more than one proposal for different projects.

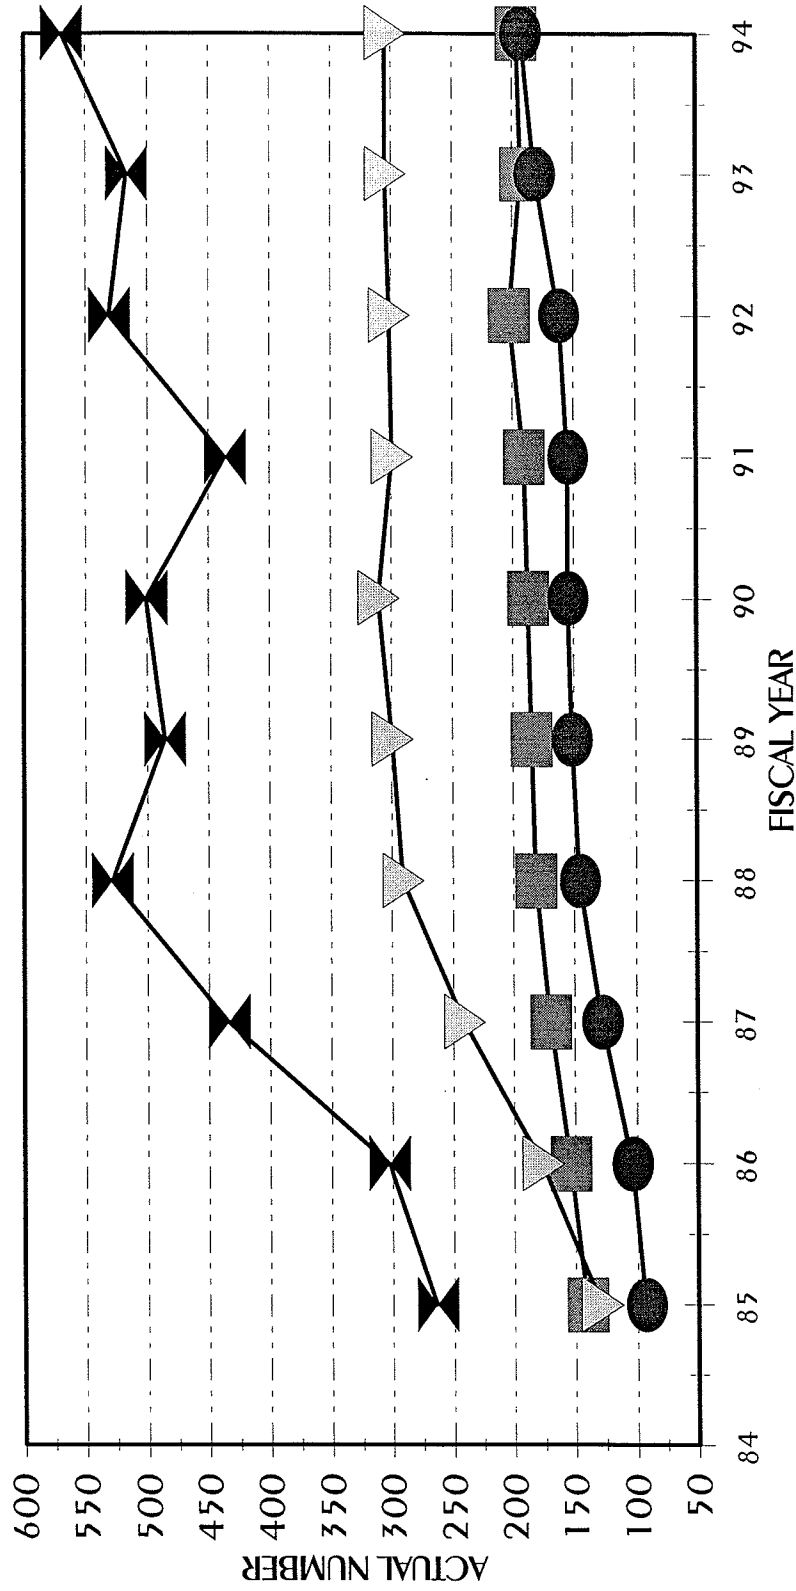

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

Shaded numbers highlight the years in which records were set for each category.

As agencies frequently take 6–12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

Part II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from
College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section IIA: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support.

This year marked the 25th anniversary of the PSC-CUNY Research Award Program. Hunter College faculty and staff have been awarded more than \$7.8 million under this program that is designed to encourage research and serve as pilot projects and seed money for larger endeavors.

After three years of reduced funding by New York State, the program was returned to its former level of \$2.8 million CUNY-wide.

The next page of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

Notes: 1. New and continuation awards as of 7/1/91 no longer have additional publication/manuscript preparation funds.

2. The possibility of two-year awards was introduced in the PSC-CUNY-17 competition.

3. Availability of funds was reduced by 50% during a period of no collective bargaining agreement.

4. The highest number ever recorded in each category is highlighted. For example, 90 awards in the most recent competition is the most ever recorded by Hunter College.

OTHER INTERNAL SUPPORT

Hunter College and the City University of New York made grants to and recognized achievements of numerous Hunter faculty and staff. Among the programs providing the funds were:

1. Hunter's **Shuster Fund**, established in honor of the late former Hunter College President, George N. Shuster.
2. Hunter's **Pluralism and Cultural Diversity Fund**.
3. **Distinguished Professorships**.
4. **Eugene Lang Awards for Junior Faculty Development and Student-Faculty Research Fellowships**.

In addition, we recognize the funds awarded by the **Scholarship and Welfare Fund of the Alumni Association of Hunter College** in support of the Mellon Minority Undergraduate Fellowship Program. The Scholarship and Welfare Fund has been most generous to the Mellon program since its inception.

Awards are listed by academic region on the following pages.

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all the award data available for the last 10 years. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowships and other grants awarded directly to faculty, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff.

This section shows a steady growth of project support over the past decade. In each year the dollar volume of the previous year was surpassed. As will be seen the numbers and amounts of the awards have risen by 230% during the last decade.

Acknowledgements

The staff of the Office of Research Administration takes great pride in assembling this annual report each year. The report chronicles the achievements of our faculty and staff, and we have great respect for the time and effort that are put into writing proposals and administering grants and contracts.

The data is gathered and formulated primarily by the full-time staff with some data input by our student assistants. In recent years, one of our part-timers, Ms. **Sydell Tyson**, has taken on the responsibility of supervising the duplicating, collating and binding of the report. She also has done considerable proofreading and I note each year how she is our quality control specialist, ever vigilant that the final product looks good.

I also want to take this opportunity to acknowledge the contributions of Ms. **Lynda Ortiz** to the Office of Research Administration. The majority of our project directors and a large number of our 550 grant employees know Lynda by name or voice or sight -- she joined our office early in her undergraduate career and upon graduation became a full-timer. She has been with us since 1986. Lynda has backed up every other staff member in the office during her tenure, as well as carving out her own niche in the office's everyday operation. Lynda leaves us at the end of August to pursue her studies. Our office staff will miss her daily presence. We all wish her well in her future endeavors.

As you have observed throughout this report, our grant and contract volume has continued to rise. Our staff has not grown in several years, and I salute my staff for weathering the increased workload with grace and in good humor. I wish to thank all of my staff for their participation in compiling this report while keeping normal operations at their usual level of efficiency. My thanks to

Angela P. Clarke	Assistant Director
Carolynn Julien	Assistant Director for Sponsored Contracts
Barbara Medina	Grant Assistant Administration C
Lynda Ortiz	Administrative Assistant
Sydell Tyson	Senior Research Assistant
Anmarie Rivera	Administrative Assistant.

We want to thank our student aides, **Evelyn Herrera, Teresa Barrow, Sharay Williams, and Jacqueline Urena** for their contributions to the office.

Thanks also to my wife, **Lillian**, for contributing her computer programming skills.

Robert J. Buckley
Director
