

The City University of New York

Annual Report of Grants and Contracts

July 1, 1998 through June 30, 1999

OPENING REMARKS

As the decade of the 1990's draws to a close, Hunter College continues to build on its record of excellence in research and service to the community.

For the fifth time since 1993, the total of grants and contracts awarded to the faculty and staff of Hunter College have surpassed the \$25 million plateau. These grants are an affirmation of the expertise and devotion of our faculty and staff members to their students and their fields of endeavor.

Hunter College will greet the year 2000 with a strong base of support for research and training projects, program development and community service.

To everyone who had a part in the awarding of prestigious grants and contracts, I offer my congratulations and appreciation.

Acting Provost

August, 1999

A Note from the Director

We are pleased to report a funding level of \$25,268,449 from 375 projects. Although the dollar level dropped due to some new arrangements on several grants from State agencies, our dollar volume is more than double the level of ten years ago. The number of projects is the highest ever.

The technology available to us has made it possible for us to be in communication with faculty who travel to distant lands in connection with their research. In this past year alone, we have had faculty pursuing their research interests to all parts of the United States, other parts of North America, South America, Africa, Asia, and Europe, not to mention island nations such as Iceland.

I hope you find this report to be of interest and value in providing an outline of the extramural and intramural support of our faculty and staff. Congratulations for these accomplishments goes to the faculty, staff and students who competed for these awards and who were instrumental in securing the grants and raising the funds.

Robert J. Buckley

Part I: Funding for Sponsored Projects

Summary of Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A Overview of External Funding

Section I-B Individual Project Listing

Section I-C Proposal Submissions

Section I-A: Overview of External Funding

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning July 1, 1974.

Grants and contracts have undergone remarkable growth since the late 1970's. Viewing awards in ten-year increments, we used 1979 as the initial base year to illustrate growth:

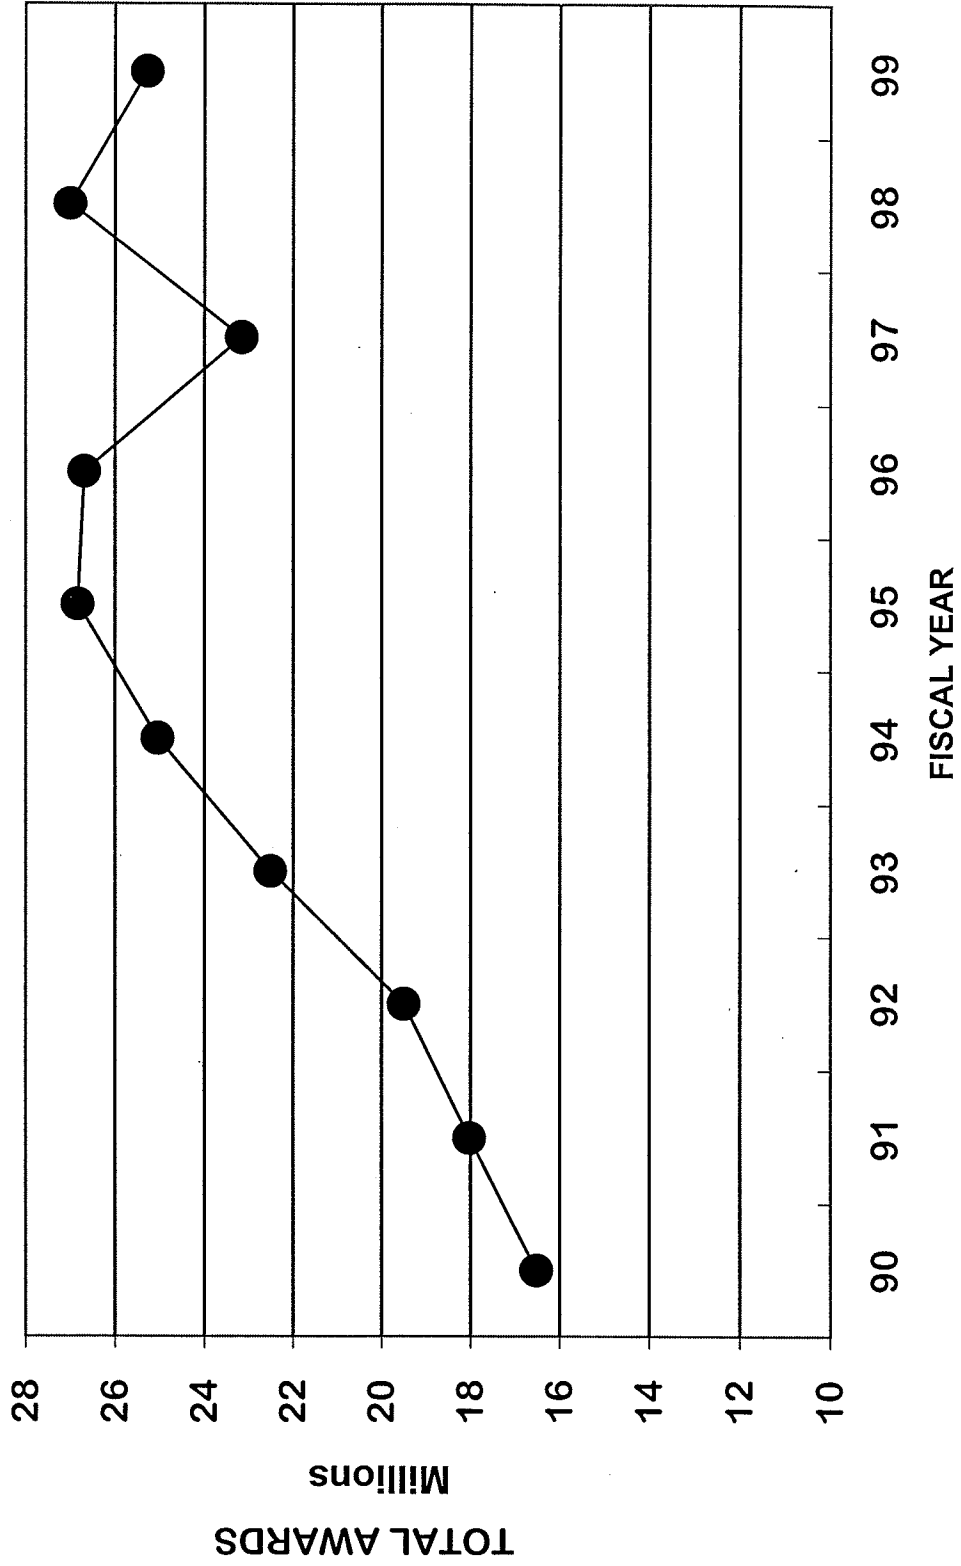

Per Cent Increase in Dollar Volume by Source
by Decade since 1979

	<u>Federal</u>	<u>State and City</u>	<u>Non-profits</u>	<u>Foundations</u>	<u>Total</u>
from 1979 to 1989	116%	935%	1,022%	1,875%	258%
from 1989 to 1999	38%	202%	160%	37%	75%

The "mix" of the source of grants has also undergone tremendous change. In 1979, Federal grants represented 85% of that year's grants. In 1999, Federal grants constituted only 41.66% of our \$25,268,449.

Note: The Center for the Study of Family Policy was instituted in fiscal year 1990. The Center for Media & Learning (American Social History Project) joined Hunter College in fiscal year 1990; it was transferred to the CUNY Graduate School & University Center on July 1, 1996. 1993 marked the first full fiscal year for the Center for AIDS, Drugs, & Community Health and the Center for Occupational & Environmental Health. Grants for the two centers were previously shown with the School of Health Sciences.

Section I-B: Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 1999 (July 1, 1998 - June 30, 1999). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. When fiscal responsibility for an award lies with a colleague's institution, CUNY collaborations are counted in the dollar total shown, (the other portion directly related to the Hunter person), and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. Type indicates whether the award is new, a continuation, (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an on going project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the status gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: Proposal Submissions

The count of proposal submissions includes:

- a. proposals for new funding;*
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding;*
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the authorization for another year of support.*

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are only included once.

In fiscal 1999 Hunter College had 554 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

Shaded numbers highlight the years in which records were set for the respective categories.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

Part II: Internal Funding for Projects

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

Blank page with faint vertical text on the right edge, possibly a page number or margin indicator.

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. Junior faculty members may qualify for summer salary, bringing the maximum possible award to \$15,720. Proposals are peer reviewed by one of more than 30 disciplinary panels.

In the 30 years of the PSC-CUNY Research Award Program, Hunter College faculty and staff have been awarded more than \$9.7 million. Grants are designed to encourage research and serve as pilot projects and seed money for larger research endeavors.

The next several pages of this section give a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by school and department and may be found as follows:

Notes: 1. New and continuation awards as of 7/1/91 no longer have additional publication/manuscript preparation funds.
 2. The possibility of two-year awards was introduced in the PSC-CUNY-17 competition.
 3. Availability of funds was reduced by 50% during a period of no collective bargaining agreement (PSC-CUNY-22,23,24).
 4. The highest number ever recorded in each category is highlighted. E.g. the awards in the PSC-CUNY-30 competition are the most ever recorded by Hunter College.

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowships and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff.

This section shows the tremendous growth of project support over the past decade. As will be seen the numbers and amounts of the awards have risen by more than 100% during the last decade.
