Annual Report
of
Grants and Contracts

July 1, 2004—June 30, 2005

Message from the President

In Fiscal Year 2005, we reached a total of \$42.7 million for projects led by Hunter College faculty and staff. With these funds Hunter College faculty and staff advanced the knowledge and thinking in their fields. Hunter's researchers have an excellent record in basic and applied research and collaborate with faculty from the nation's leading research universities. They serve on review panels for federal agencies and, perhaps most important, transmit their enthusiasm for learning and inquiry to our students.

The breadth and high level of Hunter's expertise is demonstrated by the range of funding received to develop programs and implement training projects, not only in the liberal arts and sciences, but also in the preparation of counselors, educational administrators, teachers, health and mental health professionals, nurses and social workers.

We congratulate everyone at Hunter whose strong commitment to research, scholarship and teaching helped make this achievement possible.

Jennifer J. Radb

Opening Remarks

It is a pleasure for me to note, once again, the significant achievements of Hunter faculty in obtaining external support for their research, scholarship, and contract activities. By CUNY's count, Hunter was responsible for more than 400 awards from federal, state, city, and private agencies totaling more than \$40 million.

Most members of the Hunter community are not aware that there are 600 persons on Hunter's Research Foundation payroll at any given time. During the course of a year, the grants are key in providing jobs, tuition support, and scholarships for more than 500 students.

We acknowledge the faculty and staff who put forth the effort to write and collaborate on proposals. We salute those who review proposals for government funding sources and for the College and University review panels. We thank those who direct projects and deal with the myriad and constantly changing documentation requirements connected to administering a grant.

The College administration is grateful to the faculty, staff, and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee. Their contribution is greatly appreciated.

I look forward to continuing to work with the Hunter community to promote research and scholarship.

Director's Remarks and Acknowledgement of Staff, 2004-2005

I am pleased to have the opportunity to recognize faculty and staff who have applied for funding and congratulate those who have received awards.

While CUNY includes grants originating at Hunter in its statistics, faculty and staff also received individual awards and participated in a variety of CUNY grants and State-supported programs at a level of almost \$3 million. Totaling everything, awards flowing through Hunter topped \$45.6 million.

I wish to thank the Research Administration staff for their participation in compiling this report:

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1980 (July 1, 1979- June 30, 1980).

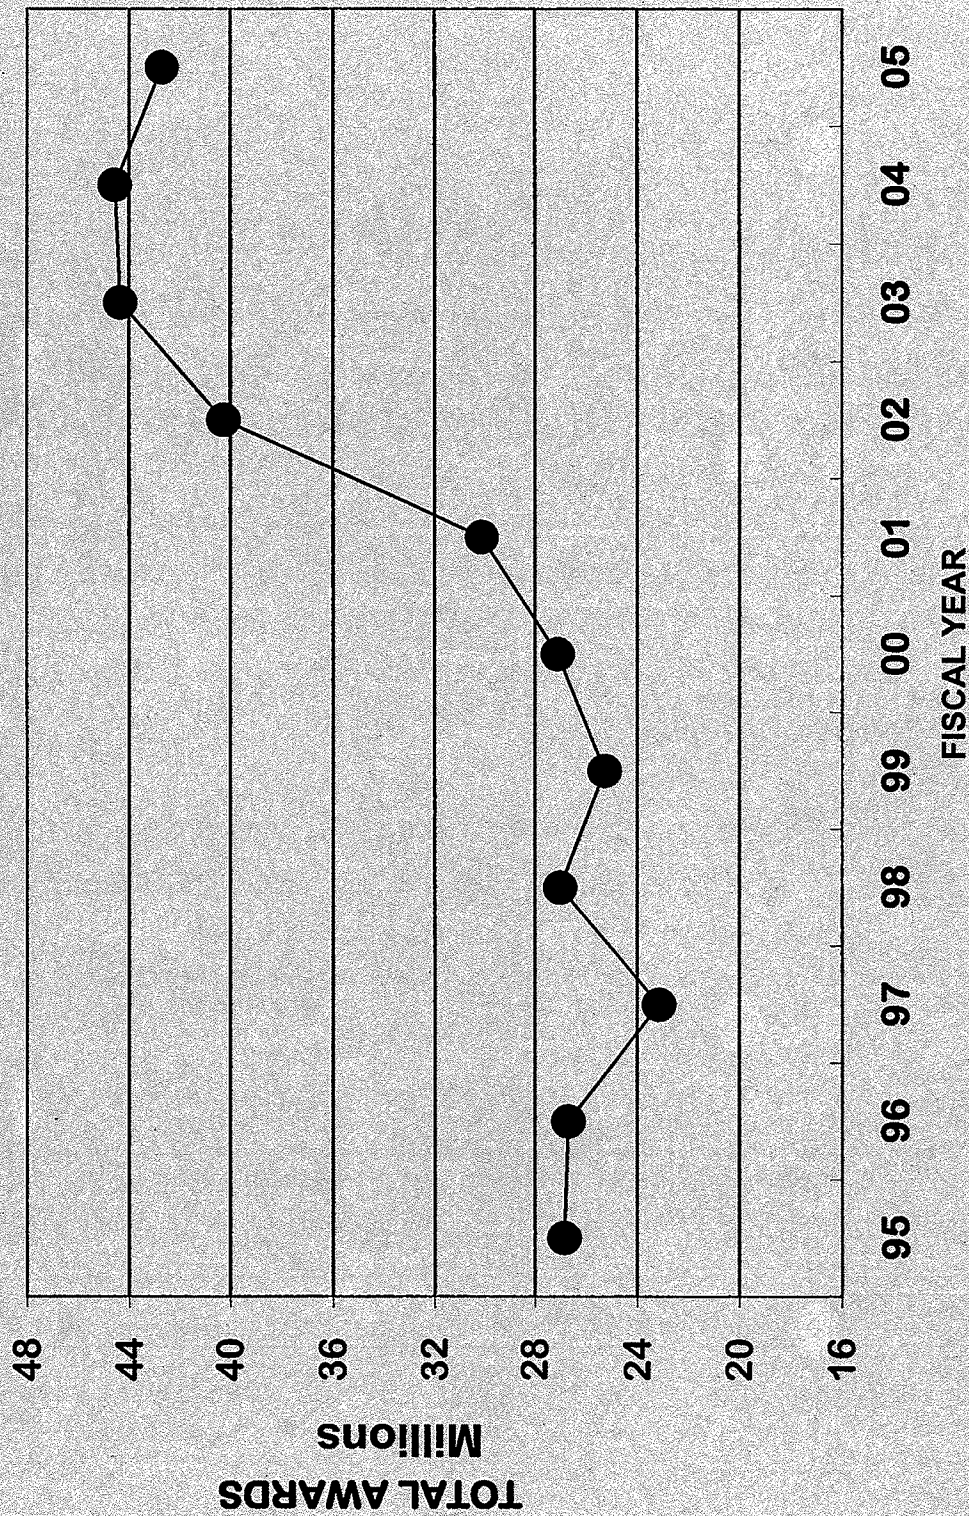

Grants and contracts have undergone remarkable growth during this period. Viewing awards in ten year increments, we used 1984 as the initial base year to illustrate growth.

SECTION IB – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2005 (July 1, 2004 – June 30, 2005). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2005 Hunter College had 629 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

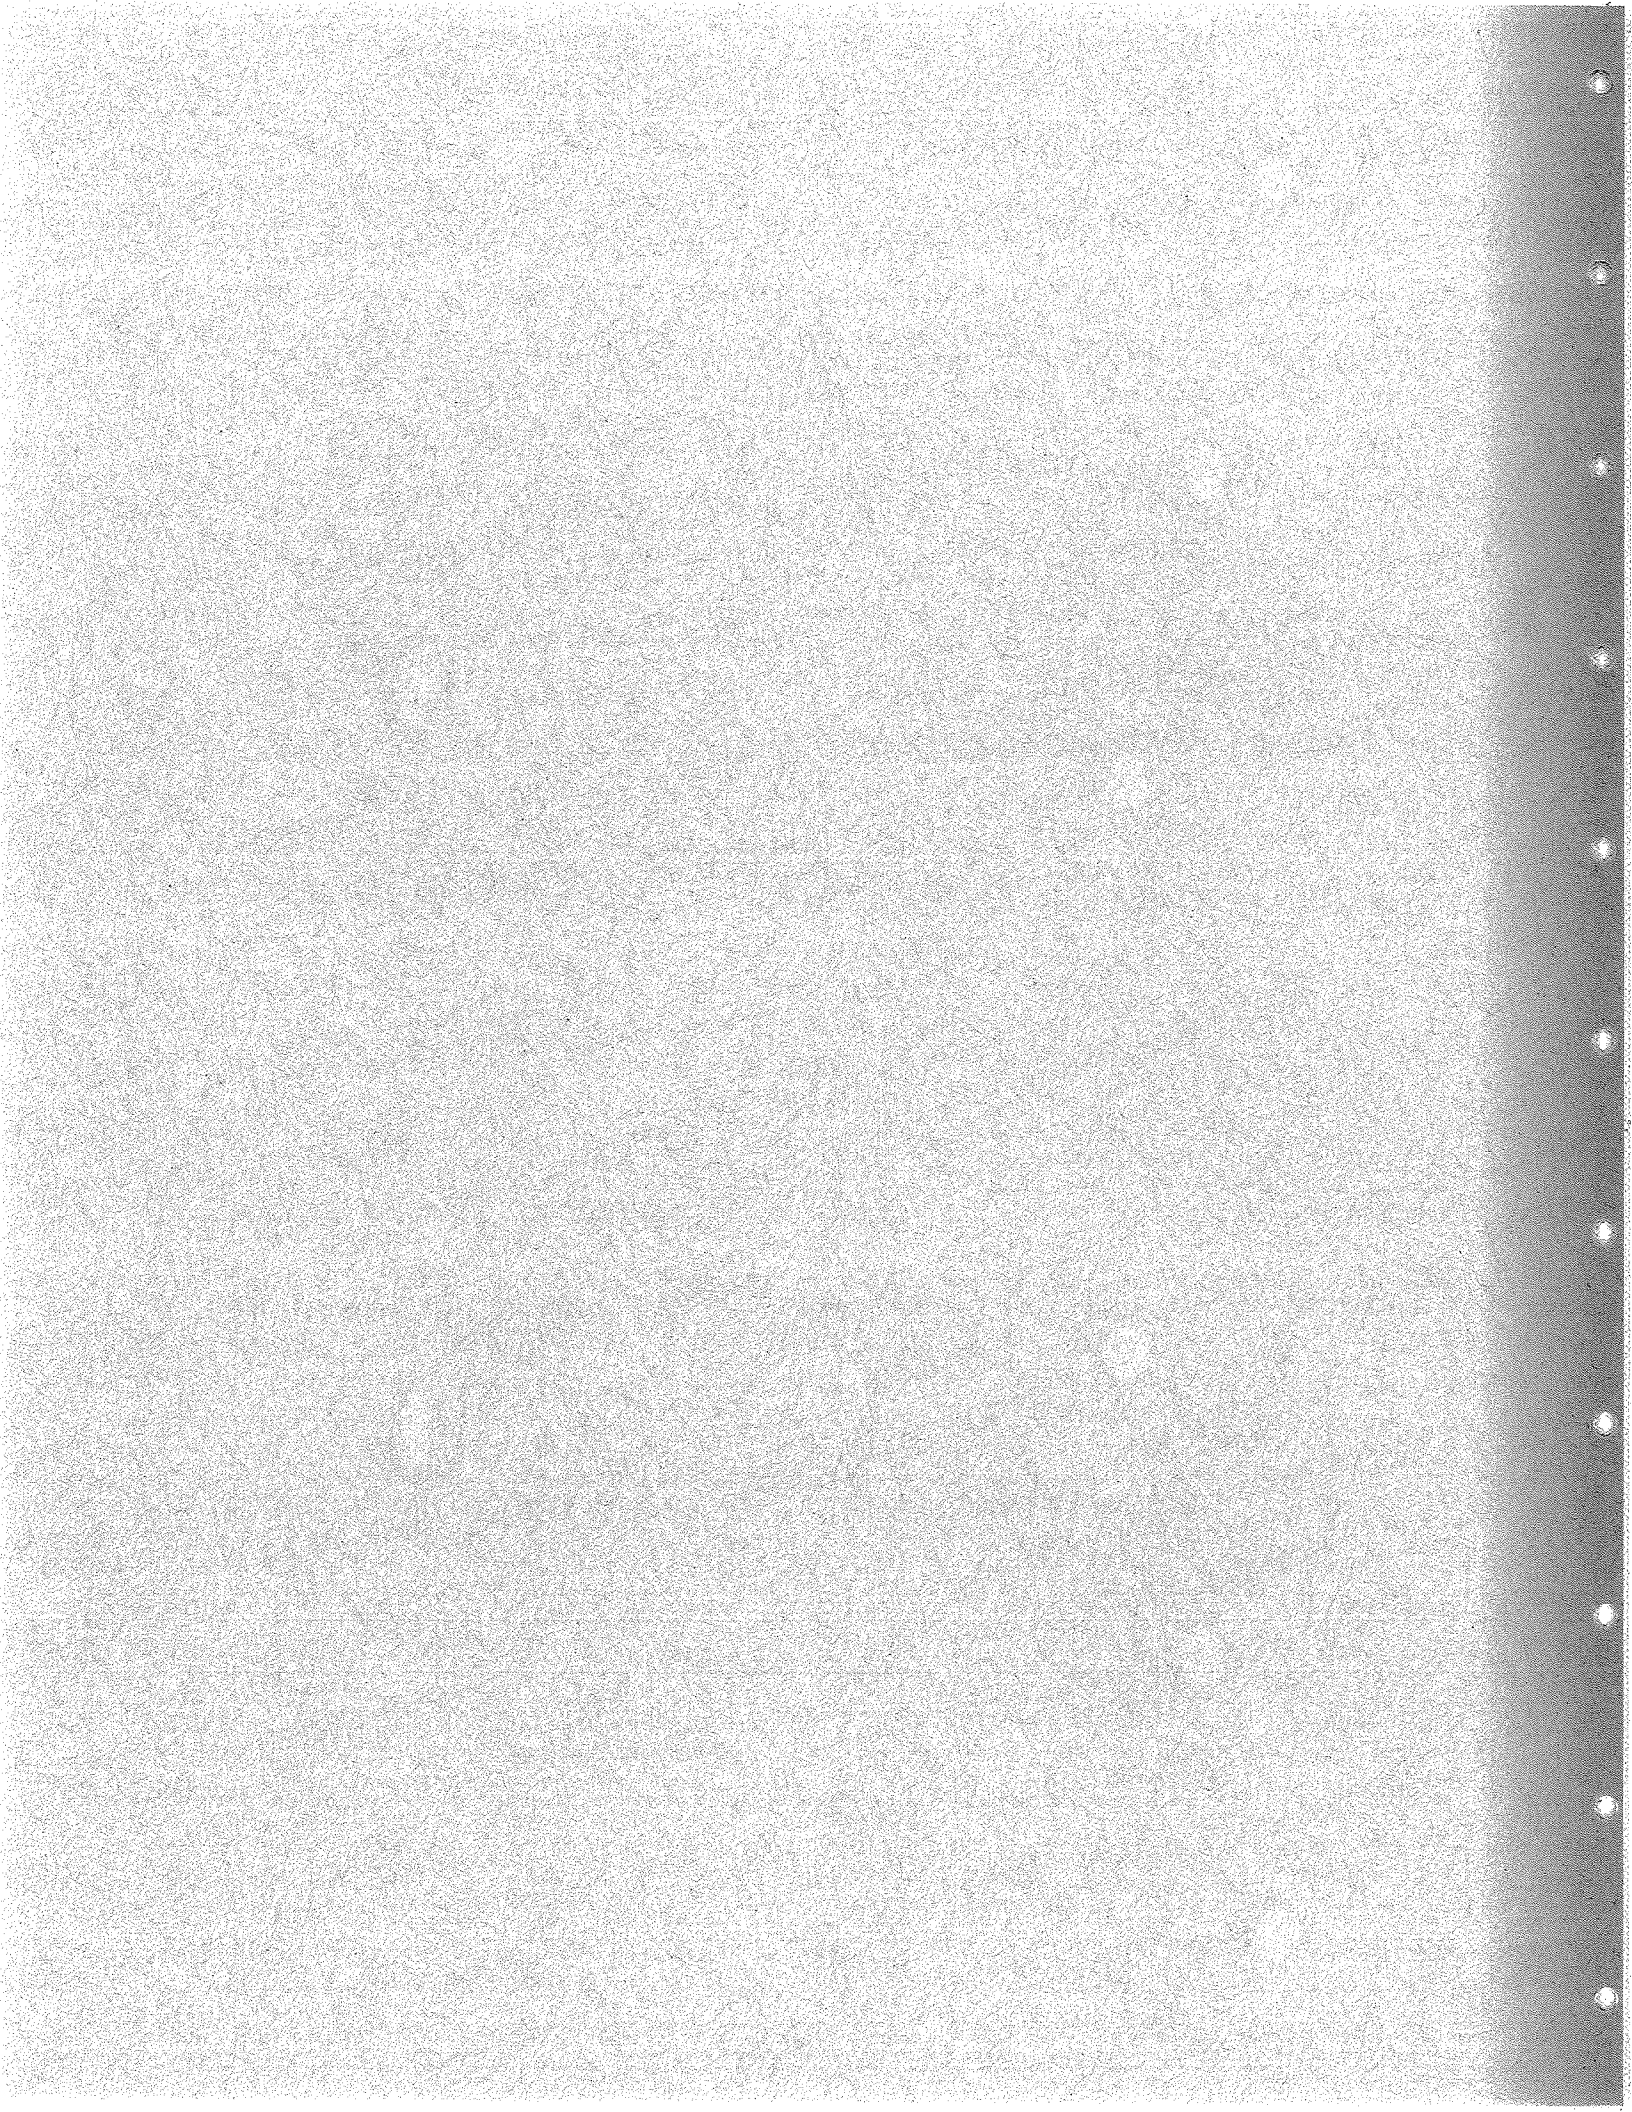

In the 36 years of the PSC- CUNY Research Award Program, Hunter College faculty and staff have been awarded 2,397 grants for more than \$11.9 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
