OF THE  
CITY UNIVERSITY OF  
NEW YORK**

**ANNUAL REPORT  
OF  
GRANTS AND CONTRACTS**

**JULY 1, 2009 - JUNE 30, 2010**

Jennifer J. Raab, President

Message from the President

Grant and contract awards to Hunter College rose by 33% in the two-year period from 2008 to 2010. Despite a difficult global economic climate during those years, our faculty and staff received record funding through traditional channels and tapped into new monies available through stimulus legislation.

Grants and contracts support the spectrum of educational and research activities at Hunter College. Virtually all disciplines at Hunter have successfully applied for external grant funding. Each school of the College achieved its highest yearly grant total in the two-year period.

Awards from external sources are a growing and integral part of the environment at Hunter. Congratulations to the faculty, staff and students who have achieved success in highly competitive fields.

**Opening Remarks**

The total of grant funds awarded to Hunter reached new levels, surpassing the \$50 million plateau in 2010 for the first time in single year. Strength in grant competitions was exhibited throughout the College. The record of success in each of the last two years was most gratifying, coinciding with the comprehensive reviews by the Middle States Commission on Higher Education and the National Council for Accreditation of Teacher Education.

We salute the faculty members and staff members who take the lead on preparing proposals. Those not involved in proposal preparation may not be aware of the tremendous commitment that proposal submissions entail, including review of literature, bidders' conferences, careful reading of guidelines, and meeting the changing regulations of funding sources.

We particularly want to note all those who were involved in submitting 50 proposals under the American Recovery and Reinvestment Act funding. Those proposals resulted in 25 grants.

We are also grateful to the faculty, staff, and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee, all of which play a significant role in maintaining research integrity and ethics.

***Director's Remarks and Acknowledgement of Staff, 2008-2010***

As our nation experienced a severe economic downturn, Hunter faculty and staff surpassed the \$50 million plateau in grant and contract awards for the first time in the College's history.

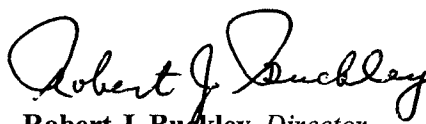

Recognition must be given to the faculty and staff who have adapted to submitting grant applications electronically, and to those who have been awarded grants and contracts.

In our report, we also include faculty and staff who received individual fellowships and awards, and participated in a variety of grants awarded to CUNY, along with State-supported programs and projects with non-CUNY collaborators. These various awards exceeded \$5 million. Totalling everything, funding from sources outside CUNY flowing through Hunter topped \$56 million in 2009-2010.

This report would not be possible without the year-round work of the staff of the Office of Research Administration (**Carolynn Julien, Barbara Medina-Garcia, Annmarie Rivera, and Karlene Roberts**). We also thank our part-time staff (**Janet Echeverry, Krystal Santiago, Sujeidy Morales, and Rimi Dhar**).

We recognize **Jean Willis**, Hunter's Payroll Supervisor, and her office staff -- they again processed grant-supported summer salaries on more than 150 Hunter faculty members in 2009 and 2010.

And our thanks also to our colleagues at the CUNY Research Foundation central office -- their efforts helped in the processing of payrolls for more than 500 grant employees in each biweekly pay period, stipends and tuition for more than 400 students, as well as in setting up accounts, processing vendor payments and reports, executing agreements and the many other intricacies required to keep a grants and contracts operation running.

**Robert J. Buckley, Director**

June, 2011

### ***Additional Acknowledgements***

*Our gratitude to the members of the two IRB and the IACUC, each of which meets at least ten times a year to review research protocols involving human subjects and animals, and the members of the IBC. In addition to regularly scheduled meetings, committee members have also been called upon in emergencies to review protocols, either in person or via conference call, and visit laboratories.*

### **Institutional Review Board (IRB)**

*(also known as the Committee for the Protection of Human Subjects from Research Risks)*

*IRB reviews are conducted in compliance with regulations promulgated by the U. S. Office of Human Research Protections. This Committee must review all research protocols involving human subjects. During each of the last two fiscal years, more than 420 protocols were reviewed. The persons who served at least one semester between July 1, 2008 and June 30, 2010 were the following:*

**Section I-B** Individual Project Listing

**Section I-C** Proposal Submissions

## SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1986. Grants and contracts have undergone remarkable growth during this period.

## SECTION I-B – INDIVIDUAL PROJECT LISTING

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2010 (July 1, 2009 – June 30, 2010). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

## SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2010 Hunter College had 858 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

*Some applicants submit the same proposal to more than one agency -- these proposals are counted separately.*

*Others submit different proposals to one or more agencies.*

*The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.*

*As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.*

**PART II: INTERNAL FUNDING OF PROJECTS**

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

**Section II-A** PSC-CUNY Research Award Program

**Section II-B** Other Internal Support

**SECTION II-A – PSC-CUNY RESEARCH AWARD PROGRAM**

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants for the 41<sup>st</sup> Annual Competition could request a maximum of \$6,000 for research support. Proposals were peer reviewed by one of more than 30 disciplinary panels.

In the 41 years of the PSC-CUNY Research Award Program, Hunter College faculty and staff have been awarded more than 2,884 grants valued at more than \$12.6 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

**PART III: OVERALL SUMMARY OF PROJECT  
SUPPORT**

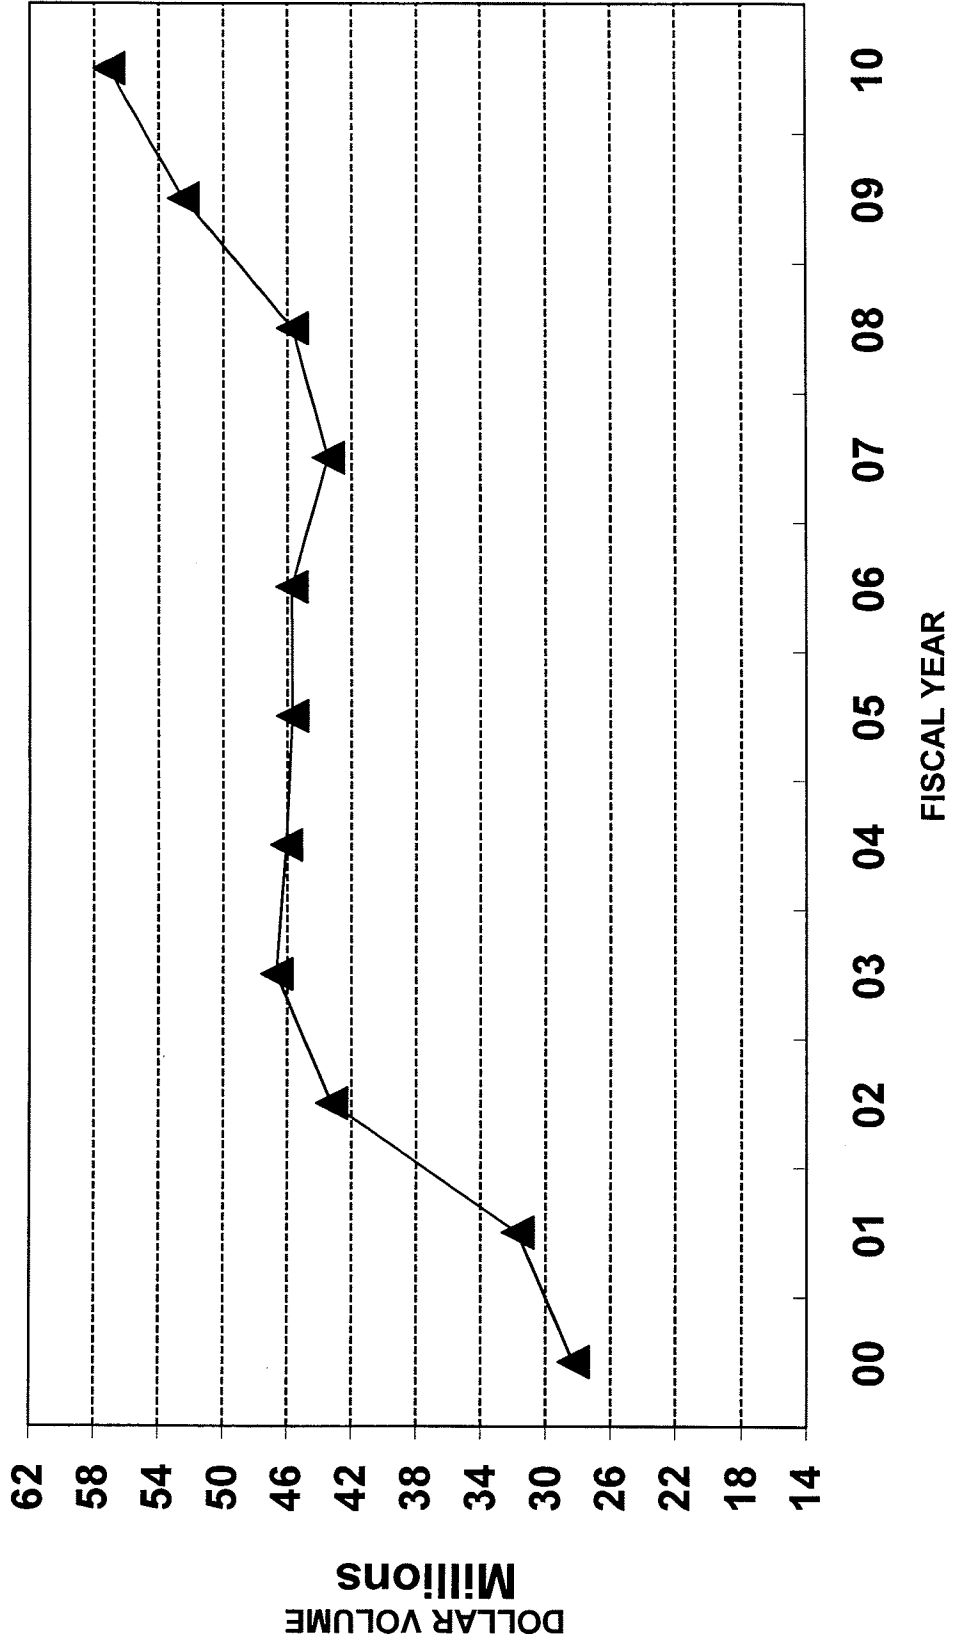

Grand Total of External and Internal Funding

## OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
