# HUNTER COLLEGE

Annual Report of Grants and Contracts

July 1, 1993 through June 30, 1994

For the eleventh consecutive year, Hunter faculty and staff have continued to break their own pace-setting records for winning grants and contracts. The 1993-94 total is more than \$25 million. This is a \$2.5 million increase over the previous year, a year in which we topped the \$20 million mark for the first time.

I know that everyone in the Hunter community shares my pride and delight in these dedicated men and women and joins me in congratulating them on this signal accomplishment. Their scholarly achievements, their commitment to Hunter students and their extraordinary contributions are all recognized in these grants, which also testify to their dedication to excellence in education. The work of our wonderful faculty and staff is a key factor in making Hunter CUNY's preeminent college.

*Blanche D. Blank*

Acting President

*(Open Line, 1993-1994, July 25, 1994, No. 19)*

### OPENING REMARKS

When I arrived at Hunter five years ago, I was impressed by the growth in the volume of grants and contracts in the previous five years. Grants in 1989 reached almost \$14.5 million, more than double the 1984 mark of \$7.2 million.

Grant and contract awards have continued to flow to Hunter. This year's remarkable \$25 million comes in a milestone year for the College, as we will be celebrating the 125th anniversary of this institution.

It is most satisfying to me as Provost of Hunter College that the increases in awards have not come from just one or two areas of the community. The Division of Sciences and Mathematics exceeded \$7 million for the first time, and the School of Social Work almost doubled its previous highest output. Further, all of our centers set new records for grants and contracts.

The success in garnering this high level of awards is a recognition of the accomplishments of our faculty and staff. I am pleased to congratulate everyone who had a role in setting this benchmark.

Laura S. Struminger  
Provost

August, 1994

### A Note from the Director

It's generally considered poor writing to be repetitive, but in the case of Hunter College's annual **Report of Grants and Contracts**, I am happy to experience that problem. Awards to Hunter College faculty and staff again surged upward -- for the eleventh consecutive year. Last year we proudly trumpeted passing the \$20 million plateau. This year the total of grants and contracts vaulted past the \$25 million milestone.

This report lists all the awards made to Hunter College during the past year. The statistics are impressive. The Overview of External Funding section of this report (green pages) shows astronomical percentage increases in funding from various sources in the last two decades. While the dollar volume was "flat" until approximately 1977, awards have been on the rise since the late 1970's.

Coupled with the upcoming 125th anniversary of the establishment of Hunter College, we decided that there must be something serendipitous about increments of 25. On a personal note, I marked my 25th anniversary at Hunter College this summer.

Further, we have computerized grant histories on faculty and staff since 1970, meaning that we are in the 25th year of record-keeping. We have taken advantage of computer technology to provide annual summary statistics going back to July 1970. I am delighted to edit this report that highlights the success of our faculty and staff in winning significant grants and contracts.

The staff of the Office of Research Administration joins me in saluting our faculty and staff on their achievements. We hope you find the following report to be informative.

  
Robert J. Buckley  
Director

August, 1994

## TABLE OF CONTENTS

Part I	Funding for Sponsored Projects	
	Section I-A.	Overview of External Funding (green pages)
	Section I-B.	Individual Project Listing (ivory pages)
	Section I-C.	Proposal Submissions (salmon pages)
Part II	Internal Funding of Projects	
	Section II-A.	PSC-CUNY Research Award Program (blue pages)
	Section II-B	Other Internal Support (cherry pages)
Part III	Overall Summary of Project Support	(canary pages)

Part I: FUNDING FOR SPONSORED PROJECTS -- Summary of  
Grants and Contracts from External Sources

This part is divided into three sections:

Section I-A      Overview of External Funding

Section 1-B      Individual Project Listing

Section I-C      Proposal Submissions

Section I-A      OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given beginning July 1, 1970.

Grants and contracts have undergone remarkable growth since the late 1970's. Viewing awards in ten-year increments, we used 1974 as the base year to illustrate growth:

Per Cent Increase in Dollar Volume by Source from 1974

	<u>Federal</u>	<u>State</u>	<u>City</u>	<u>Non-profits</u>	<u>Foundations</u>	<u>Total</u>
1984	55%	1,691%	(99%)	353%	5,522%	118%
1994	278%	9,360%	1,197%	1,457%	26,385%	656%

The "mix" of the source of grants has also undergone tremendous change. In 1974, Federal grants totalled \$3 million and represented 88% of that year's grants. In 1994, Federal grants has risen to more than \$11 million, but that amount constituted only 44% of our \$25 million. In the same twenty-year period, foundation grants rose from less than 1% of our total support to better than 21% this year.
