

# HUNTER COLLEGE

Annual Report of Grants and Contracts

July 1, 1995 through June 30, 1996

## OPENING REMARKS

The past year was one of transition at Hunter College, beginning with the appointment of President David A. Caputo. The year also brought two shutdowns of the federal government, followed immediately by a record-setting blizzard that effectively continued the period of federal inactivity for another week. Coupled with the very late adoption of a state budget, there were clearly a number of new obstacles to be overcome in competing for external funding.

The momentum in the area of sponsored grants and contracts continued unabated, however, and this fact is a tribute to the expertise, imagination and persistence of a dedicated faculty and staff.

With so many kinds of institutions struggling for survival, obtaining grants has continued to become more difficult. Our faculty and staff secured a record 357 awards from external government and private sources during the 1995-96 fiscal year. In addition, another 150 projects involving research and professional development were funded through the PSC-CUNY Research Award Program and various other initiatives advanced by Hunter, The City University of New York and various private entities. More than 40% of our full-time faculty are involved in new or ongoing projects. Viewed together, Hunter faculty and staff has access to more than \$28 million to advance institutional and professional goals.

As we prepare for the accreditation visit by the Middle States Association, I am pleased to congratulate all our faculty and staff who participated in these achievements.

A handwritten signature in cursive script that reads "Laura S. Schor".

Laura S. Schor  
Provost

of The City University of New York

Office of Research Administration • 695 Park Avenue, New York, N.Y. 10021 • (212) 772-4020  
A Note from the Director

As we conclude another successful year in the arena of competing for grants and contracts, we think back on some of the events of the last year.

The failure to pass a federal budget in a timely manner highlights the precarious nature of working on grants, as reviews of grant proposals ground to a halt, the issuance of grant award notices was delayed, and there was no cash forthcoming from Washington for weeks at a time. The State and City also sent mixed signals on possible changes in project periods. We want to acknowledge the faculty who worked with us in arriving at creative solutions to keeping pay checks flowing to their staff members. And we must also recognize the project employees who understood that circumstances were sometimes beyond the control of anyone at the College and who experienced being temporarily appointed on various accounts until the situation was stabilized.

Although we had a drop in revenue from normal streams of funding, much of that loss was offset by the award of \$1.9 million from the Higher Education Applied Technology (HEAT), an initiative funded by New York State. With that infusion of funding, our overall drop from government agencies, foundations, non-profit organizations, and corporations was limited to \$150,000. Despite the drop, the number of projects that were supported rose by more than 10% -- an indication that despite increased roadblocks, our faculty and staff extended themselves to find new sources of support.

Sadly, our statistics are adversely effected by the completion of some successful projects and the departures of several individuals:

❖ After twelve years and more than \$9.7 million awarded to Hunter, the federal legislation for the New York Multifunctional Resource Center, headquartered in the Division of Programs in Education, has expired. Funding over those years had risen to more than \$900,000 in fiscal year 1995. This year we received a "phase-out" supplement. Professor Emeritus **José Vázquez**, who has directed other projects totaling more than \$1.8 million, continues his efforts as the lead person on the Hunter component of the New York Technical Assistance Center.

❖ The Inter-University Program for Latino Research, under the umbrella of the Centro de Estudios Puertorriquenos, "rotated" its administration from Stanford to Hunter in 1989. The IUPLR was responsible for close to half a million dollars in those years. While the Centro continues as a leading member of the IUPLR, it was time for the administration of the program to move on to another consortium member, the University of Texas at Austin. We know that Professor Emeritus **Frank Bonilla** will continue his fine work with and on behalf of the IUPLR.

❖ We continued to be the administrative home through the end of the fiscal year for the Center for Media and Learning/American Social History Project. A couple of its recent grants were handled by CUNY Central. The Project now re-locates to the CUNY Graduate School and University Center. We look forward to future relationships with **Steve Brier** and his staff.

❖ On an individual level, we want to wish a happy retirement to Distinguished Professor of Biological Sciences, **Joseph Krakow**, who garnered more than \$4.2 million in research funding during 25 years at Hunter. And to faculty who have been active in research, training and institutional grants, we wish all the best in their new university settings: **Keith Clarke, Esther Madriz, and Hilda Blanco.**

The members of the staff of the Office of Research Administration join me in congratulating all who carry Hunter's name forward proudly into grant competitions.

  
Robert J. Buckley  
Director

September, 1996

# Section I-A: Overview of External Funding

*This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning July 1, 1971.*

*Grants and contracts have undergone remarkable growth since late 1970's. Viewing awards in ten-year increments, we used 1975 as the initial base year to illustrate growth:*

Per Cent Increase in Dollar Volume by Source  
by Decade since 1976

	<u>Federal</u>	<u>State and City</u>	<u>Non-profits</u>	<u>Foundations</u>	<u>Total</u>
from 1976 to 1986	163%	1,636%	262%	1,665%	255%
from 1986 to 1996	40%	441%	390%	238%	148%

*The "mix" of the source of grants has also undergone tremendous change. In 1976, Federal grants totaled \$2.6 million and represented 86% of that year's grants. In 1996, Federal grants reached \$9.7 million, but that amount constituted only 36% of our \$26.7 million.*

Note: The Center for the Study of Family Policy was instituted in fiscal year 1990. The American Social History Project joined Hunter College in fiscal year 1990. 1993 marked the first full fiscal year for the Center for AIDS, Drugs, & Community Health and the Center for Occupational & Environmental Health. Grants for the two centers were previously shown with the School of Health Sciences.
